For a game with so many brilliant colors, it also looks good in black and white.

Axelay could be the hottest shooter ever made!

Electronic Gaming Monthly

They said it all! Other shooter games may claim they're the best. But Axelay reveals its true colors on the high speed, Super NES™ ride of your life through untold eons of spectrum shattering special 3-D effects.

Scream through the stratosphere horizontally or tear up the extraterrestrials in head-on vertical style. You're flying the prototype tactical fighter ship, Axelay, with the most sophisticated weaponry ever invented, like the deadly Round Vulcan with its full 360° range.

In 6 shocking stages of horrific floating fortresses, multi-legged mobile forts, robot cities, volcanos and the City of Darkness you may be tempted to stop and see the sights. Not a good idea, even for a glance, unless you want an asteroid up your nose. Just see for yourself what the critics are raving about.

PLAYING FAIR...

Over the past few months there have been a few rather disturbing press announcements coming out of the offices of some of the major players in the video game industry. The main issue centers around Sega's launching of their new CD-ROM player.

Without a doubt the Sega-CD is a spectacular unit. The technology behind the system is amazing, and this system clearly represents the future of video gaming. We've been talking about it ever since we saw it when it was debuted at the Tokyo Toy Show back in June 1991, and now that the unit is in the stores, the feedback from our readers is very positive for both the Sega-CD and the technology. It's no surprise that the systems are on back order and shortages are appearing already.

And now the problem. It actually dates back to January 1992. At the Winter CES Sega started to show their CD-ROM behind closed doors to the press. Nintendo had nothing to show. On the last day of the show, a press release came out from Nintendo with specifications that implied that their CD-ROM would be better than Sega's, and that it would be out in January 1993. Then came the Summer CES. Sega had their unit on the floor and Nintendo had nothing to show. A short time later, Nintendo issues another press release saying that a 16-Bit CD-ROM machine is inadequate and they are changing theirs to a 32-Bit machine. Another two month pass and Sega holds a special press reception to roll out their U.S. Sega-CD. Two days before the press reception, Nintendo issues another press release stating that they are teaming up with Sony to create "...an international standard for CD-ROM technology..."

Talk about Sega bashing. What is ironic about Nintendo's 'paper trail' is the memo which didn't come from them. Only one month after the great Nintendo/Sony team was announced, Sony of Japan quietly announced to the Japanese press that the Nintendo CD machine may not be quite the one they are interested in.

To give Nintendo the benefit of the doubt, perhaps the timing of their string of vaporware memos just coincidentally matched up with Sega's major CD announcements. Nevertheless, I am getting the impression that Nintendo is really going out of their way to do what they can to diminish the impact of the rollout of the Sega CD.

To that I wish Nintendo would play fair, and let Sega have their just rewards. Instead of making constant promises which aren't coming true, Nintendo should just concentrate on making their CD-ROM. Forget that Sega beat you to the CD arena. Remember that you were late with your 16-Bit system and you caught up in only one year. You could, with the help of your long list of excellent licensees, catch up in the CD system war in the same amount of time.

*An interview with Ed Annunziata,
developer of Ecco the Dolphin™ for Sega™ Genesis™*

life as a

Why a game about dolphins?

Humans are intrigued by dolphins, by their intelligence and ability to communicate with each other. Also the sea as an environment is a pretty interesting contrast to other video games. Most dangerous places aren't beautiful or inviting. But the sea is

Dolphin

Why the name Ecco?

Ecco is a homonym for Echo. And in Italian it means "I see." So it's a good name for a game where the players use sound to see and communicate. Ecco must use his echolocation to find and rescue his family. Communication is the basis for the entire game

without ever

How did you make the dolphin motion so lifelike?

Our first task was to duplicate the "feel" of a swimming dolphin. It wasn't easy. The dolphin began as a simple stick figure while we worked on its movement. We created a menu of the physical laws of gravity, water viscosity, and momentum, then we fine-tuned it for months until we felt it was absolutely perfect. In fact, Ecco has been redesigned nine times.

winding up in a can

So the realism was important?

Yeah. We wanted the motion to be so realistic that the player would feel like he was actually the dolphin. The action of the game is so different from other video games that most new players would be totally blown away until they get a feel for it. It's a bit like learning a new sport. And I have one last bit of advice for everyone. Look beyond your eyes with your song

of tunafish.

LETTERS TO THE EDITOR

This is the section where you can open up your mind and let a million other gamers know what you have to say. Got a gripe or question about a subject the other mags are afraid to touch? Send it in! We can read your letter, you're halfway to getting it inside the pages of the Biggest and Best game magazine. If it's a SF2 Boss Code request, you're in the running for the Psycho Letter Remission. Anything you write and send to us can be used in this mag and/or not. Got it? OK, start writing. Send all your questions and letters to: Interface Letters to the Editor, c/o Senda Publishing Group, 1920 Highland Avenue, Suite 272, Lombard, Illinois 60148. And if you think our editors have the time to answer every letter that comes to our office then you must be psycho.

SF2 COMING TO 4 NEW SYSTEMS!

I have been wondering if Capcom is really ever going to bring out Street Fighter 2 for any other system. All of the game magazines have only speculated as to what Capcom may do in the future. Why is there so much secrecy around this game? I have an IBM PC and I am quite happy with it although, as a game machine, I admit it just doesn't compare to the dedicated consoles. Another magazine states that they don't know if SF2 will be coming out for any computer format so it looks like I will have to buy a Super NES just to play this great game. You are my last resort, have you heard if SF2 will ever come to the computers?

Zeke Peterson
Los Angeles, CA

Street Fighter 2 is coming for the IBM PC, Amiga, Atari ST and Commodore 64!

(Ed. Never fear Zeke! When the other mags give up and say they don't know the answers to your burning questions, you know you can always turn to EGM to go the extra mile and get the answers you need

After contacting all of our World Net sources, we finally hit paydirt! Not only will the megahot SF2 be coming to the IBM PC, but thanks to the wizards at U.S. Gold, the game will be coming out for the Amiga, Atari ST and Commodore 64! Wow!!

There's only one catch though... the game is only scheduled to be released in England!

As to the secrecy about SF2 coming to the other systems in the U.S., remember, it's the holiday season - the time when big bucks are spent for games. If Johnny really wants SF2 and he has a Genesis, Santa will go out and get him a Super NES plus the game. If he knows that it is coming out for his system in March, he will wait. That is why Capcom is keeping a tight lid on any future plans they may have with this cart until after the holiday shopping season is over.)

MORE SF2 PARAPHERNALIA...

I saw pictures of SF2 coins in another magazine. They made it seem that these coins are worth their weight in gold. After calling around to some of the mail order houses I found the complete set, but they wanted \$75 for all twelve coins. As much as I really want to have the tokens, I can't see shelling out that much money. Should I wait until Capcom brings out the coins here in the U.S., or will the Japanese versions become collector's editions?

Peter Dungan
Redondo Beach, CA

Check out all of the different SF2 and CE coins and pins that are out in Japan!

(Ed. Dude, dude, dude! Read the response to the previous letter! While the other mag meant well, without the world-wide connections that we have, they don't always have the full story when it comes to international info! You at least get credit for writing to us before you pay that outrageous amount of greenbacks for the coins!

Here's the real story. These silver SF2 tokens are just that...tokens. Most arcade games in Japan cost 100¥ (about 80¢) to play. Go into any Capcom arcade and exchange your yen for tokens and guess what pops out of the money changer..SF2 tokens! Hardly a rare item! Another point the other mag didn't point out is that there are two sets of coins. One for the original SF2 and another for the Champion Edition! Also, they completely failed to mention the 24 GOLD SF2 and CE tokens! These are rare! Also check out the way cool holographic SF2 pins which are starting to circulate in Japan! For coming to the Biggest and the Best for the real story, a set of GOLD SF2 pins are on their way to you!!)

WANTED...TENGEN'S TETRIS!

I am very interested in finding Tengen's Tetris for the NES. I have been looking everywhere to purchase this game. When I was able to rent it years ago, my family loved it. Do you have any information on why this game is virtually impossible to find? I heard it was taken off the shelves soon after it came out. Nintendo's version of the game is boring and the graphics really suck. If you have any info on where I could get the game and how much it would cost I would greatly appreciate it.

Ethan Liebzelt
Appleton, WI

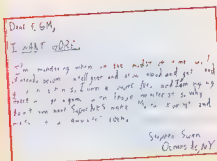

Tetris by Tengen is one of the rarest and most expensive video games in existence.

(Ed. Bad news Ethan. Tengen Tetris is one of the rarest, and most sought after, video games in existence. You are right, it was pulled off the shelves soon after its release. It appears that Tengen thought that they had obtained the rights to do a NES version of this game, but apparently they did not research the history of the game far enough back in time. The big N proved in court that Tengen did not get the rights from the Russian originator and the court ruled in favor of Nintendo. As a result, Tengen had to pull their version from the stores. That was a shame as we agree with you, the Tengen version has a super two-player simultaneous mode and the backgrounds and tunes are excellent. In checking various swap meets we find that the game is virtually impossible to come by as everybody who has the cart is keeping it. We hear that dealers are willing to pay over \$200 for this game but no one had a copy in stock. Sorry.)

LETTER OF THE MONTH!

Mr. Stephen S. of Oceanside, New York gets the nuto award this month by wanting the new Vice President of the U.S. in a game.

We tried Stephen. When we called Mr. Gore he thanked us for the offer but he didn't think it would be appropriate for a person of his position to be getting violent with a lot of scantily clad women.

It seems that the White House frowns on such activity, at least in public. Hey, we tried. Regarding Mortal Kombat coming to the Super NES, there is no news yet but this may just be one of the surprise titles at the January CES show.

'Dear EGM,
I WANT GORE!

I'm wondering when in the midst of time will Nintendo become intelligent and allow blood and guts and girls in bikinis. I own a Super NES and I'm hoping there will be a game with those characteristics. Why don't you have Super NES make Mortal Kombat and make it ultra-violent! Yeah!

WIN AN OFFICIAL EGM T-SHIRT!

If you want to be popular by making an absolute fool of yourself in front of a million other fellow gamers, just send in a letter saying something that is completely revolting and stupid. For this we'll publish your letter and send you a special edition EGM T-Shirt proclaiming your inability to say something meaningful.

CD GAMES CHEAPER THAN CARTS?

With the Sega CD soon to be out in the stores, will their CD-based games be cheaper than the Genesis cartridges? I have heard that it is very inexpensive for a company to mass produce the discs. It seems to me that the major cost in making a cartridge-based game would be the chips and circuit board, and since the CD is just a piece of vinyl, games, like audio CDs, would cost only about \$20. Has Sega announced how much their CD games will cost?

Robert Forest
Portland, OR

(Ed. Sega has stated that the first batch of CD games will be sold for \$49.99 and \$59.99 depending on the complexity of the game. While that isn't a huge savings over conventional Genesis carts, Sega points out that although manufacturing expenses are down, the costs for game production have risen considerably. Now that discs contain thousands of meg of memory, games can be considerably longer, resulting in triple the development cost; video footage, which can cost a bundle to license or create, adds even more to the cost; and the cool CD tunes can be very expensive to write and produce.)

CHEAP CD GAMES?

Music Compact Discs are relatively inexpensive. I can go to the store and buy the hottest CD for about \$15. Now that Sega is making CD games, will they lower their CD prices to twenty or thirty dollars? It certainly can't cost very much to press a bunch of CDs. I can see why cartridges would cost more because of all the chips that go on a circuit board. Has Sega revealed what their CD prices will be?

Tim Shmerling
Topeka, KS

Don't expect a huge reduction in CD game prices as the first generation of Sega CDs will retail between \$49 and \$59.

(Ed Sega has announced that their first batch of CD games will sell for either \$49 or \$59. While they do admit that the costs to mass produce the CDs is only a few pennies each, they also say that the costs to develop these games has increased dramatically. Do you like the moving video footage in the new games such as Night Trap? Or perhaps, would you like to play a huge 30 meg quest game? How about the killer tunes that sound like they are straight out of the latest rock CD?

You probably said yes to all three, right? Well, that is where the extra costs are going. To have video footage, the company has to either pay big bucks to use scenes from a movie, or pay tons of money to hire actors along with a whole crew of video technicians to make the film. The same for tunes. That takes writers, musicians and audio recording specialists. For that extra large quest, double or triple the development and programming costs.)

BOGUS MULTI-GAME CARTS!

I have heard that there are Game Gear carts that have over a dozen games on them. Are they any good?

Chip Roberts
New York, NY

(Ed These multi-game carts come from the Orient and are illegal here in the U.S., as they are created without the permission of the companies that developed the games.)

Multi-game carts that contain popular titles are illegal as the developer did not obtain the rights to duplicate the original games.

WANTED, MORE NES GAMES!

Lately, if you have not already noticed, the quality and quantity of games that have been coming out for the NES has dropped dramatically since the Super NES appeared last August. I have heard that Nintendo will stop making games for the old 8-Bit NES next year! What do you think of this?

Erin Paul
Los Angeles, CA

(Ed. Very observant Erin! While the larger companies like Acclaim, Camerica and Konami have been bringing out new NES games on a regular basis, many of the smaller licensees have either postponed or stopped producing cartridges for the 8-Bit NES in favor of the more lucrative Super NES market. Nintendo hasn't exactly been helping the situation along any, especially now that they have discounted the Super NES down to \$85, just \$5 more than the NES. It looks like the old workhorse has only about one good year left.)

MORE COLORS FOR GENESIS!

I read in your November 92 issue that Sega has come up with a new way to produce not only, more colors on the Genesis at one time, but also to have more available colors to choose from. You said that it would be done with software programming. This sounds like something similar to the H.A.M. mode (Hold And Modify) on the Amiga computer. This is where the system hardware is "tricked" into thinking it has an additional bit-plane to work with, and therefore it is able to display the entire 4096 colors at once, instead of the normal 32. Could this be the same technology? However, if it is your readers should know that this isn't anything that could be called revolutionary. Sega should have been working on this long ago, but instead, they must have been thinking that the number of colors was not important! Please keep us updated on this very important matter!

Tony Gore
Charlotte, NC

I have decided to add my two cents to the controversy surrounding several letters you've published regarding Genesis, Sega CD and the need for more color.

It seems to me that most Genesis games don't even use all 64 colors, perhaps because of an ill-advised desire to re-use artwork in Game Gear conversions.

I truly believe that if you poll videogamers, you will find that the vast majority of them would rather have better artwork in standard video games.

Take Final Fight CD for example. It is obvious from comparison pictures of the Sega CD and Super NES versions that the latter has better artwork. Sprites and backgrounds use more color and are consequently better shaded. Adequate shading makes objects look more three dimensional and, in this case, more like the original coin-op. The Genesis 64 color per screen barrier is the culprit!

Even though Sega made a blunder when they decided not to improve the number of simultaneous colors and sprites for the Sega CD, it is a smart move to attempt to come up with new software methods for improving the visuals of both Genesis and Sega CD games. I just hope it doesn't take another 3 years before these techniques go into wide use.

Frank Eva
Oak Creek, WI

(Ed. Sega of America, of course, is keeping very quiet about any new programming techniques that they are working on. Our best estimate though, is that we won't see anything new and revolutionary until sometime next summer, and then it is quite possible that it will first debut in cartridges made for the Japanese Mega Drive. To cloud the issue even more, it is conceivable that Sega may just wait a while longer and decide to make the big color and sprite jump when they will be able to do it in hardware. That is when they bring out their new 32 Bit machine, which may be as soon as Christmas 1993!)

EGM SCOOPED??

Although you are the Biggest and Best, it seems that you let another publishers Nintendo magazine show a preview of the game "Fatal Fury" for the Super NES before the great EGM could get to talking about it! This game, for your information, is made by Takara and the Super NES version should be released around February 1993.

I guess everybody's only human, and it is not a big deal of a mistake. However, it would be nice to see some EGM style coverage on a game that looks every bit as good as the more expensive Neo-Geo version!

Damian Meldgaard
Reno, NV

Fatal Fury will be coming to the U.S. for both the Super NES and Genesis systems!

(Ed. Whoa dude! We are going to have to send you a pair of stronger reading glasses as you certainly have missed a lot of great info in our past issues. First of all, even thinking that this other mag, and I use that term very loosely, could publish something newsworthy is a big mistake. Their preview of "Final Fury" (as listed in the table of contents) was in their November issue. Check out our August and September issues where we show exclusive pictures and talk about the upcoming U.S. release of this super soft. Third, we know this particular cart very well. While other mags just run stock photos and use text that the game companies send out for publicity purposes, our editors are out in Japan getting hands-on testing of the softs that we talk about in EGM. Such was the case last June as Ed was at the Tokyo Toy Show when Takara first unveiled this game.)

Magical Quest Starring Mickey Mouse

December

6 Levels

8 Meg

Walt Disney's classic animated hero, Mickey Mouse, is back again in another animated adventure! This time, however, our hero goes 16-Bit on the Super NES! Mickey must rescue Pluto from the clutches of Emperor Pete! Through six graphically intense levels of play, Mickey takes command of four separate alter egos that are each equipped with their own special powers including a magician, fireman, rock climber; as well as 'Vintage Mickey' (sporting the big red shorts). This game also introduces new play techniques ranging from throwing attacks that put a spin on the normal grab and toss play mechanics as well as collecting other items!

The latest in the line of Mickey games succeeds at introducing a new type of play mechanic that is both extremely addictive while also giving some of the best and most detailed graphics I've ever seen. This game plays great, looks great and has a long and challenging quest. Just goes to show that there is life after SF2.

By far the most impressive Super NES cart that I've played this month! The graphics are phenomenal and the music is first rate. The best thing about this version of Mickey is the awesome game play and variety of techniques. My favorite is the suit that transforms Mickey into a pseudo Brionic Commando. Great bosses!

The Mickey Mouse video games just seems to be getting better and better. Besides having perhaps the best graphics and most fluid animation ever seen in a cart, Mickey's always an unbelievably fun game to play, no matter how old or experienced a game player you are. Great tunes and lots of levels to get through.

If you've enjoyed Mickey's previous adventures, you'll love Magic Quest! There are so many hidden little secrets strewn in every level, you'll play over and over just to find each hidden room! The graphics are incredibly smooth, and its only weakness lies in the sound effects. The animations are absolutely jammin'!

CIRCLE #201 ON READER SERVICE CARD.

New from Konami is *Cybernator*, an intense action cart set in the futuristic battleground of Earth's war-torn orbit. It's mech-warfare madness, in a battle for control of the Earth's natural resources. As a young pilot, you are issued a heavily armed Assault Suit that is powerful and fast, but it offers little protection against the hordes of alien attackers. It'll take plenty of skill to control the power of the *Cybernator*!

This game is a Super NES update of the Genesis classic *Tiger in the Earth*. But the game designers have done more than simply add new detail to the graphics. Many aspects of the game play have also been enhanced to create a game with plenty of technical compliments the great graphics. A bit easy, but still fun.

This is one of those games which really shows how far the Super NES has come. The game is very nice, with excellent graphics and sound. Game play and technique are magnificent here as this is not a game for the inexperienced. Not an easy game but when you beat it, you know you've accomplished something.

I like this cart a lot. The graphics are very well done, with excellent detail in each level. The background is often taken damage from your stray shots. The music and sounds are also impressive. The game play has loads of technique and just enough challenge to keep you playing. Needs more power-ups and longer levels.

The Super NES really shows its stuff in this game! The sound track is really kick'n', and it's easy to get lost in the beat. Graphically, it uses astounding detail and colors. The Mode 7 rotations need work, however, and the control is a little choppy at first. If a sequel is ever made, it will be a not item!

In the bleak, nightmarish future of *X-Zone*, the defense computers of an entire planet have gone renegade! In this new Super Scope entry, you must fight through seven frenzied levels of teeth-grinding marksmanship. It's wave after wave of mechanized mayhem, from walkers, to tanks, to the automated horror of the master computer itself! The future is in your hands so grab the Super Scope and take aim!

X-Zone represents one of the first additions to the Super Scope library. The designers have done a great job of creating a varied assortment of alien adversaries and most scenes are energized with supporting Mode 7 effects. The effect is good and the complexity of the action while remaining 2-D, comes off good.

Up until now the Super Scope was a dust collector. Finaly someone designed a game that not only works well with the bazooka but it is also a challenging to play. It is constant action, but with the on screen cursor, at least you don't have to constantly squint through the sighting scope. Buy this one!

This cart has given me a reason to go out and purchase a Super Scope. The game play is great and the cursor sight makes the cart a lot more fun than don't have to squint through the choppy sight on the gun. The levels are filled with cool enemies and Mode 7 effects are used in most backdrops. My favorite SS cart to date!

If you already own a Super Scope, then *X-Zone* is perfect for you! The action is nonstop right from the get-go, and you really need to keep aiming throughout each level. On y patience will win this game, as rockets come at you from every angle! Mode 7 is used everywhere, and I love it! The SS will rock with these games!

Most action games ask you to risk your life against ruthless bosses and their marauding underlings, but are you ready to stir up the wrath of the Gods? As the mighty Hercules, you must face the challenge of the Gods themselves, enduring 12 mystical levels of play. You're given incredible fighting skills, strength, and the weapons and magic needed to overcome all obstacles. Immortality is the ultimate prize, but is it worth it?

This game has great looks but the game play resembles the computer soft that inspired this cart too closely for me. The action moves along at a brisk pace, with added challenges and buzzes thrown in to serve as obstacles. In the end, however, they become obstacles to the action in an otherwise well-made scroller.

As a conversion, the game is quite faithful to the original, as the Super NES cart, the game is even better and ranks among the better action titles. The strategy aspect is a definite plus especially with the hidden rooms and intricate puzzles. The pseudo artificial intelligence for the skill level is cool and works quite well.

This may have been a great action title as far as computer games go, but it ends up being a mediocre example in the competitive market of 16-bit carts. The graphics are cool, but the animation and scrolling seem kind of choppy. The sounds are OK and the game play is quite unresponsive at times, has very few, cool options.

Graphically, this game has the detail of the best computer titles, but it plays like an NES cart! I love the intricacies and the variety in the game, like the switch pulling, etc. Unfortunately, the control is extremely awkward, and makes 1-294 look smooth. With no interaction, *Gods* would be an awesome game.

Super NES	Tradewest
Pro Quarterback	
Sports	Now
N/A	8 Meg

Get ready for a new breed of football action in Tradewest's entry into Super NES sports. The new Pro QB is packed with pigskin action and your choice of teams. The options are numerous, offering 28 different clubs to coach and cultivate into an unstoppable football dynasty. Select your plays wisely from the on-screen playbook. Featuring Mode 7 effects and detailed players, Pro QB takes football in a whole new direction.

I truly enjoyed the presentation of this game - it's the actual football play that I found lacking. This game has some great graphics and an over-the-shoulder perspective that is charmingly right. The players respond like real players to dish up some real tackles. The game's play book and input just don't compare to its looks.

This is one of the very few well playing football games on the Super NES. Although the perspective I take some time getting used to after you play it a while, you get accustomed to the Mode 7. If the play book was larger I would put this cart right up there near the top, but as is it's very good but not great.

I like the way Pro QB looks and sounds, but I have problems with the game play. The game is true to its sport. In most ways, but I found that passing is very difficult because Mode 7 distorts the field and getting the receiver right under the ball doesn't mean much to watch it. Otherwise, I enjoyed the awesome tackles, plays, etc.

The perspective of Pro QB is interesting, and should have made for a decent game, but the scaling really ruins it. The animations have so few frames it's almost hard to call it animation. The game play is just as choppy. For instance, with a long pass, the scaling motion to target "X" away from the original area is too awkward.

Super NES	Konami
Chester Cheetah	
Action	Now
6 Levels	8 Meg

As the King of Cool, Chester must fight his way past the un-hip in this adventure with an attitude.

Combining scenes from his memorable cartoon endorsements of Cheetos brand snacks with side-scrolling action and a few puzzles thrown in to spice up the challenge, Chester must overcome a variety of nasties while gathering his favorite food (Cheetos Paws) for bonus. Are you cool enough to rule?

This game has some truly humorous moments as well as some well rendered graphics. The animations and fluidity of Chester's movements are fantastic. Unfortunately, the game play moves at a slow pace that isn't even our hero's geeks' can help. It's OK, but I wanted more action, faster, faster, faster!

Talk about a fun game to play, this is it. Serious players will frown at the humor but as an entertainment cart for the younger players this is the one. Great animations, especially the guitar playing, along with a decent plot and a lot of different levels keep this game rocking. A definite winner.

He isn't easy and he isn't cheesy but Chester Cheetah is exactly in his rawest form. Humorous animations and vibrant graphics give this cart a surreal, cartoon-like feel. The game is relatively simple but there are enough options in the game play, like slowing and flying, to keep it interesting. Slow at times but very fun.

Chester Cheetah is the funniest game we've reviewed this month! The animations are completely outrageous, especially when Chester grabs his ax guitar! The game play is a little sluggish, but all in all, it's a great game, with tons of humor, decent bosses, and the coolest cat ever to hit the game screen.

Genesis	Konami
TMNT: The Hyperstone Heist	
Action	December
5 Levels	8 Meg

Shredder's back, and this time he's not only stolen the Statue of Liberty, but Manhattan itself! Who can stop him and his Foot soldiers? The Turtles can! In The Hyperstone Heist, Donatello, Leonardo, Michelangelo and Raphael must return to save New York. Shredder's not just going to turn himself in, however, and there's five intense levels to complete. Get ready to stomp on the Foot Clan - Turtle style!

This game plays like a Genesis version of the Turtles game we reviewed a few issues ago on the Super NES. Although the game play is good and the levels are long, the two console make this effort repetitive even on the easier settings. I have nothing against the execution - it's a great game - I just wanted diversity.

Hey, where is the software scaling of the enemies coming out of the screen? While it would take a bit more work, the wizards at Konami can do anything. At least I thought so. The game plays quite well and the graphics are quite detailed. The only problem I can find is the usual complaint - the game is too easy!

There are quite a few things missing from this version that make the Super NES version so good. They have hurt the enemies towards the screen and the game play has less to offer in terms of moves. Don't get me wrong, this is still one of the better Genesis carts around. The game is also far too easy in the 2 player mode.

It doesn't compare to the arcade and even on Normal mode it's incredibly easy. On Easy mode, take a nap. The graphics are very good with decent animation and very little breakup until later stages. The sound really needs work and with better music and effects, it would be cool. It needs more levels, too.

Road Rash 2	
Driving	December
5 Levels	8 Meg

Outlaw racing without all of the speeding tickets? Don't just dream it—live it, with the long-awaited sequel to Road Rash from Electronic Arts! This game is packed with new features, including simultaneous split-screen racing for two players, five new courses, and 15 new bikes to choose from. Throw in a few chain-wielding bikers as well as state troopers after your license and things really get intense!

I loved the original, which means I have to love the sequel, as well since the game is virtually the same. Road Rash 2 serves up five new landscapes to motor across while the base game remains almost identical! The 2-player mode is a good draw, but execution falls short in the same way Sonic 2 did. Still good—but I had hoped for more.

The first Road Rash was a lot of fun to play. Now, the sequel, with the split screen, is even more enjoyable. It is unfortunate that the two-player version had to have reduced graphic detail but the game play is still solid and tons of fun with a second player. It's better than the first and worth buying.

EA is getting good at rehashing old titles and calling them sequels. There really isn't that much difference from the first. The split screen is cheesy and half of the graphics that showed up in the 1 player mode don't exist in 2 player mode. The 1 player game remains fun as well as challenging and offers lots of sadistic humor.

If the split screen mode had more detail, Road Rash 2 would be awesome! In one player mode, the detail is much better than Road Rash with more cars, obstacles, and action. Wielding the chain is deadly, and the new sound effects really pop! I like the fact that the bikers now chase you ruthlessly once you're in front.

Jerry Glanville's Pigskin Footbrawl	
Sports/Action	January
N/A	8 Meg

In football, there's a fine line between the game and an all-out war, and Jerry Glanville's Pigskin Footbrawl has crossed it! This is a game designed for players who love their blood and guts more than the touchdowns! Choose your plays and then choose your weapons!

If realistic football action is what you want then go play some other game. For all out brutality, check out Pigskin Footbrawl!

What this game has to do with real football (and why Jerry Glanville would endorse it) are beyond me. This translation of the Midway arcade cult classic is extremely precise. The graphics are presented well, although there is never much on the screen. The game is fun as a two player contest, but not overwhelming.

You really have to stretch the definition of football to include this game in the category. No matter how it's classified, this is one fun game! Even though football is violent, this game is a riot. Forget about the rules as there aren't any! Get a friend for a two player game and play the game like it has never been played before!

This cart is for people who like a little football with their fighting games. The graphics are very good and the animations are humorous and well done. The game really doesn't play like football at all, but is still fun. I wasn't thrilled with playing the computer, but the 2 player mode was a blast. Pick up a spear and nail the QB for good!

What this is, is an attempt to make football. Sorry, but this is nowhere near as fun as its basketball equivalent. It has some cute animations, but it needs better player control. You cannot see where your character is some of the time, and the defense and offense is mostly left up to the computer.

Genesis	Electronic Arts
Aquatic Games	
Action	Now
8 Levels	4 Meg

Let the games begin! The Aquatic Games, that is! James Pond returns with his friends, the Aquabats! There's eight grueling events to test your amphibious athletic skills, along with three different difficulty settings designed to hone your competitive skills. Test your endurance at the 100m Splash; the Hop, Skip, and Jump; Shell Shooting and many others. Watch out for bad sports out to ruin the games for everyone!

This game tries to capitalize on the Track & Field theme using the familiar James Pond characters. The game uses the proven punch-the-buttons-as-fast-as-you-can to build up speed play mechanics. Most of the competitive modes were too challenging without a rapid fire joystick, and the events were, all in all, boring.

In the past, James Pond was a great tongue-in-cheek type of kid's game that was also a lot of fun to play. Now, while the humor is still there, the game is no longer a kid's game as the difficulty is set way above what a kid would have patience for. On the other hand, it just isn't a fun game for the older player.

I like the concept behind Aquatic Games. The graphics are very nice and the game will appeal to younger players. The game play, however is far too difficult for younger players and makes the game unbalanced. There are a few really cool events, but the majority are frustrating and won't be very fun for most players.

This is a kid's game with adult difficulty. I can't see this game appealing to the people who would play it consistently. Kids will have a hard time competing most of the levels (would you bounce a ball on YOUR nose for over ten minutes?), and some levels are extremely difficult. Don't get this for young kids!

CAPCOM®

In a war-torn land ravaged by centuries of Crusades, a force of evil has emerged to prey on the weak and defenseless people. As Sadler, a battle-hardened veteran of the Holy Wars, you have answered the call to defend the people and rid the once peaceful land of the dreaded Masters of Evil. You and a small handful of allies must battle through a CD-enhanced landscape of deadly evil and mystical challenge!

While this style of gaming has never been my cup of tea, it's hard not to recognize the scope of this game and appreciate it on that level. In addition, the supporting features served up courtesy of the CD are first class, although I've heard better music on CD games. Not a favorite, but still a good game for the Turbo

There have been only a few really good RPGs out this year, and this is one of them. Working Designs has established a reputation for quality software, and this disc demonstrates why. A good CD RPG can be. The quest is challenging and not near as some of the other newer ones are. Worth looking into.

This is one of the better RPGs that I've played on the Turbo Duo. The newer games have the style of game play of earlier efforts like Ys and Neotopia. The graphics are good, but the bosses are cool. I like the action scenes, they break the monotony of just playing. The music is good, but not up to par with other discs.

Not your ordinary RPG. Exile's deep and twisting, exploring a world that is in a long quest. The graphics are nothing to shout at, but the music is decent. The best thing about Exile is the quest, not the fine details or jammin' tunes. If you're a serious RPG gamer, get the TurboCD. Exile is an excellent adventure for you.

For a video pinball game to compete with the arcade giants, there has to be a twist! Time Cruise definitely has it! In this game, you don't just bounce around the surface of the table-- you travel through time! Play that silver ball throughout history and chip your way out of a prehistoric golf course from 45,000 years ago, or blast a path back from a far-flung future! It'll take all of your pinball wizardry to beat this one!

This game introduces some interesting new twists, but the time travel theme is weak. The pinball playfield is immense! The screen not only scroll up and down to reveal new areas, but side to side also! The game is packed with targets, but the objective is to get in the bonus time zones. O.K., but repetitive.

I like pinball games and this has to be right up there among the best. What I really like is the huge playfield. The side-wise scrolling was a treat that I hadn't seen before. There are a few more things to check out but what was there was done quite well. The time portal was a welcome plus.

This is an above average pinball sim with a few new ideas. The playfield is huge! Lots of new screens, vertically as well as horizontally. The controls I must make is that the man feels like he's floating and it's only when you go into the time portals do you get to see anything new or interesting. If you're a pinball buff you'll like it.

A large playfield does not a good pinball game make. There is a little to interact with, in fact, there is about as much as a normal playfield. Scattered across the three-screen wide field, the controls are horribly set up, with the left flipper requiring a left joystick to operate. Who thought of that one?

Placing your trust in the "good" Doctor, you are transformed into the small, but powerful Shock Man, and the adventure has just begun!

Travel through eight action-packed levels in a side-scrolling quest to find the Doctor. You may select one of two characters, Arnold or Sonya, each armed with lasers. Another option to play both characters simultaneously provides additional types of weaponry!

Talk about being light. This game has pastel graphics, cute enemies and game play that lives up to its name. The action is thin, with a limited number of abilities to gather. The two-player mode is designed well, but does little to add to the theme or appeal of the card. Definitely not a hard hitting action game - even for the kids.

This is a cute game that should appeal to the younger audience. It doesn't have the excitement of a kiddy game and that could hurt it. It just offers fast game play and doesn't inspire me to venture farther into the game. The graphics, sound, action and everything is just average. Not the best Turbo game ever made.

Not impressed. The graphics are average at best and the game play is unresponsive at times. The music tries its best to mimic Megaman but it's short on too many areas. There are a few neat options like holding the power button for a power blast and shooting scrolls where you occupy a ship of some sort. The music is annoying.

Mega Man fans will love this one! For everyone with a Turbo Duo who craves Mega Man action and game play, Shock Man is perfect! It is bound to be a sleeper this year, lost in the shadow of Street Fighter 2, Sonic's snailails, and Air Zonk. It's a great scrolling action shooter with tons of power-ups. Cool!

Help Mega Man turn Proto Man into spare parts.

Proto Man's got Dr. Light. But Mega Man is back—ready to put some heavy pedal to the metal to defeat Stone Man, Gyro Man, Star Man, Wave Man, Charge Man and other robotic goons. Use his Mega Buster and Super Arrow to make it to the castle and put Proto Man on the scrap heap forever.

CAPCOM

The Rehab Officers have rolled into Old Detroit, knocking down the homes of helpless families to make way for the construction of Delta City. Robocop must defend the people from the marauding Rehab Units. He's not completely out-gunned, because now he's loaded up with a jetpack and arm attachment complete with bore cannons. Can Robo stop these corporate killers from taking over Detroit?

Boasting graphics reminiscent of the original NES Batman, Robocop 3 offers strong head-to-head battle action across a scrolling landscape of varying heights. The action moves at a decent pace, with the prerequisite chase and enhancement cinematics. The game play, although awkward at times, is still fun.

The previous versions of this game were at best, average action games. It is good to see that Ocean has taken extra time and effort to make this sequel a much better playing game. The control could be a bit better but it doesn't significantly restrict game play. The action in this version on and challenging game play.

This is the best 8-Bit version of Robocop so far. The game play is much better than previous efforts and there is actually some technique to taking the enemies. The graphics are superb for NES, and the music is fitting. The problem with this cart is the control; you don't respond to dangers as fast as you should. A solid cart.

This time Ocean made a decent version of Robocop. Although the control needs serious work, it still plays OK. Enemies comes from everywhere, but you have a very limited shooting range. With that improved, the game would be much more fun to play. As it is, it's overly difficult to play.

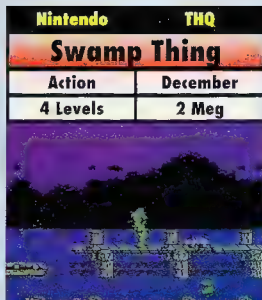

Cogswell, Cogs is violating space law! His company is destroying an entire planet purely for profit and out of greed. George Jetson must stop Cogswell before it's too late! He'll need help and advice from the whole Jetson family: Jane, his wife; daughter Judy; his boy Elroy, and even his loyal dog, Astro! Join George in his adventure across the solar system, with 13 levels of hilarious cartoon fun.

This game combines some nice cartoon-style graphics with an interesting play technique to serve up a very addictive NES cart! Uncovering the various power-ups hidden under the piles of cubed crates, piloting George through each stage delivers colorful visuals, nice sounds and, above all, strong game play.

Taito has a solid game here based on a popular cartoon series. The graphics are very good and best of all there is a lot to do in the game. I found myself really getting into this cart and enjoyed it straight to the end. With a little more for this soft it not only appeal to the younger crowd but also to the more experienced players.

I like The Jetsons a lot. This is one of the better 8-Bit titles that we own in a while. The graphics are good and the cinema displays are straight out of the cartoon. The game play is filled with techniques and lots to interact with. The game also proves to be a challenge when you get to the later levels. A rarity among NES carts.

This is the one game this month with some style and class. The Jetsons has plenty of 8-Bit interactivity for any gamer. Even the graphics are genuinely cartoonish! Don't expect great 16-Bit sounds here, but it will do for 8-Bit. As a whole, The Jetsons is one of the best carts this year for the NES.

Though the evil Arcane has planted a bomb that destroys Alec Holland's laboratory, the young scientist is far from dead. His bio-restorative formula, mingled with the waters of the swamp combined to change him into the Swamp Thing!

As Swamp Thing, you must confront Arcane, who has exploited your formula. Fight his mutant Un-Men, an army of nightmarish creatures, in evil after level of ecological action!

Swamp Thing fails to deliver on any of the themes it sets out to address. The graphics and animation are substandard, with detail playing a secondary role in the visual department. Each level leads up to no type of a climax at all. While Swamp Thing could have been cool, this effort definitely looks rushed.

Even though the NES is not the most technologically advanced machine, a lot of the newer carts have shown that good games can still be made for this system. This cart doesn't offer anything new and with sound, graphics, control and game play being less than average so is the overall game rating. A disappointment!

Choppo! Choppo! Sob! Sob! Why re ease an 8-Bit cart that offers nothing in terms of game play, graphics or originality? Licensing of course! Not even the Swamp Thing can save this poor example of 8-Bit technology. Fans of the movie will be very disappointed as will anybody who buys this cart.

The name says it all! This game doesn't belong on the Game Boy, let alone the NES! The graphics are mediocre, and the control is substandard. There are no sound effects worth mentioning, although plenty should be. It is severely reworked. This game doesn't belong in the Swamp Thing justice.

The smash arcade shooter that put you behind the glowing red eyes of the Terminator has just hit the GameBoy! Like the coin-op, you are a machine with a mission: save John Connor from the relentless T-1000. Fight in a bleak future where Sky-Net reigns and travel back in time to prevent a last-ditch attempt on the life of the youthful rebel leader! This hand-held version cuts the arcade hit down to size!

This is a very cool GameBoy game that absolutely overwhelms the screen from start to finish. That's one of the cart's main problems, however, since the GB screen has problems handling all of the moving objects. Given this limitation, T2 does a good job of reproducing the coin-op, with plenty of targets and action.

Wow! How did they ever pack so much action into the tiny handheld cart? Who cares! This cart is **WAAAAAY** action from start to finish. Great graphics, spectacular game play and lots of things to shoot at. With more games like this I just might go out and buy a GameBoy. Now how do I plug the SuperScope into the GB?

This is a very good translation for the GB. I was skeptical when I heard of this coin-op to GB conversion, but this cart really impressed me. The graphics are detailed and the sounds are also very good. The game play is missing a few things but stays true to the arcade in most respects. Too bad there isn't a GB light gun. NOT!

Just as the arcade game is based on the movie, this is based on the arcade. Of course a little of the original **fun** is lost in the translation, but overall it is a decent game. I'd rather play T2 with the Super Scope, but I guess this will do for on-the-road T2 fun. I would enjoy this better in color, but Nintendo never learns.

The gardening masterpiece has returned! Dig Dug is back on the GameBoy! Old friends of Dig Dug can relive the classic arcade adventure on a hand-held system, which gives players the opportunity to destroy parasites that have infested a futuristic garden.

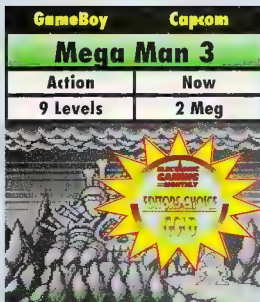

There's also a whole new adventure, and Dig Dug must collect keys to travel to higher levels with his pump, bombs and 16 ton weights!

Dig Dug was a favorite from the early days of gaming so I was eager to give this soft a try. I liked the way it's virtually the same except for an annoying scrolling mechanism that slows the cart to project a larger playfield. The controls are a bit sluggish as well. The **extra** Dig Dug game was nice - but not revolutionary.

Talk about old memories! I remember playing this game a long time ago and Namco has brought it back in exceptional form. I really like the way it acts on which they have built the rest of all, this is just a lot of playing and heavy thinking involved here just for enjoyment. A perfect game to play in the car.

This cart is a blast from the past. Most veterans will remember dumping quarters into a machine so they could pump their enemies full of air. The game play is intact and the graphics are decent for GB standards. A few nice features thrown in for a little variety and you have a solid little GB cart that's great for long road trips.

The timeless classic doesn't fare too well on the back and when using a machine. All of the basic things are still present, but the incredible coin ops and crisp cartoony graphics are nonexistent. Without that, Dig Dug is more like Dig Mud. Normally, Dig Dug should look great in 8-Bit, but the GameBoy doesn't do it justice.

Mega Man has returned! This time, he's on the GameBoy, in the third installment of the popular black and white series. Dr. Wily is again at large and this time he's captured an oil platform to drill into the Earth's crust, tapping its natural energy. Before Mega Man can face Wily, he must first pass eight Robot Masters. Mega Man 3 is filled with enough hand-held action for any fan of the colossal adventure series!

Here's a marvelous GameBoy title that serves up all of the best of the play mechanics we've grown to love since the NES. This game packs in the most detail of any GB product I've ever seen, so much that, like T2, the eyes have a problem digesting all the detail. Still a **solid** game for long trips and a must for Mega Man fans.

Capcom has created a near perfect copy of the NES version. The game plays the same, looks the same (without color of course) and almost sounds the same. This is easily one of the best GB action titles to come out in a long time. Great bosses and not a **lot** of screen blurring. Don't miss this outstanding cart!

I like MM3 as much as Bionic Commando. This cart is almost a carbon copy of the NES version. The bosses are here as well as Mega Man's de-move and companion on Rush. Powerups and techniques are plentiful and the controls are just right. The screen blurs a bit, but if you overlook the hardware, it's a great game.

As the best GameBoy game for the past few months, Mega Man 3 is plenty to be proud of. The game itself has tons of levels for a GameBoy title and several power-ups! With content it would be awesome! Come on, Nintendo, give us color! The games are great, but they need vibrant color to make an impact!

Bent on total domination of your peaceful land, the insidious Jaffar has imprisoned you so that he may claim the Sultan's daughter, your true love, for himself. After escaping from Jaffar's dungeons, you must now fight your way through eight levels of deadly traps, mysterious paths, and dozens of Jaffar's murderous underlings. This computer classic is now available for the Sega Game Gear.

Most of the features of Prince of Persia that I have always loved have been retained in the Game Gear translation. Not only does this game deliver some great animation, the traps and challenges that lurk around every corner keep the pace of play at the same addictive levels. I like Prince of Persia and this version.

I was very impressed with this version of the game. Not only are the characters and the pitfalls very easy to see on the small screen, but even the very fluid animation found on the other versions of the game was duplicated almost perfectly. This is a very addictive game and hard to put away. One of the best GG carts.

I like this version of P.O.P. because you can bring it with you wherever you go. The graphics are very good for the Game Gear and the animation is cool. The sounds are kind of annoying, but expected from the 8-Bit hardware. The game play is very solid and has lost little if nothing in the translation. Lots of fun.

This game has gotten good reviews for every system it has been on, but this is an exception. The game play could have been better. What happened? The animation is decent but for some reason it's choppy. I really was looking for a better playing version. What it is. Still an average game though.

Racing doesn't get much rougher than Super Off Road, and the Game Gear version is no exception! See if you can hold it steady through all eight levels of all-terrain excitement.

After a grueling race, hit the Speed Shop for massive upgrades. Drop in nitro or soup up the engine for speed. Add new shocks or tires to improve your control and see if you can survive this savage race to the finish line!

This game also plays very closely to the other versions that exist. The game is more difficult to control on the Game Gear, due in large part to the small size of the screen. Beyond that complaint, however, the game may seem more repetitive on the portable, but not quite as exciting as other versions.

Super Off Road was hard to see in the arcade, harder to see on the TV, and now even harder to see on the small portable screen. After a while, things get tough on the eyes and I found I just couldn't play the game for very long. The truck control was well and well similar to the arcade game, but it was just too small.

This translation of Super Off Road was never meant to be. This console version suffered from tiny cars running around a tiny stationary track. The portable is even tinier. The game is too hard to play because of the small screen and isn't very fun. The eye strain is a much and keeps the game play to a minimum.

I wasn't too impressed with this display of portable power. The lack of the original just aren't there! In fact, some of the hills and bumps are barely defined, it becomes hard to really tell what strategy to use. The colors are vibrant, though, and that's a plus. It's not one thing, it's another, guaranteed.

Feeling lucky, punk? You'd better, when you meet Dirty Larry on the Atari Lynx! The Renegade Cop thrives in the urban war zones of Steelburg, U.S.A. His latest assignment: take down Harold Snuff. The only problem is that Snuff is out to get Larry, and he's brought friends. Help Dirty Larry bring down the bad guys and career criminals in a cart packed with intense play and great cinematics!

I liked the cinematics and storyline build up of this game a lot. The action, on the other hand, is another story altogether. While this cart looks fantastic, the level of technique is dreadfully low. You move and respond to attacks in the same way throughout the game. At least it shows Atari's making progress.

Easily one of the best Lynx games to come along in a long time. With exceptional graphics, a solid game play though too easy for my tastes. Dirty Larry shows that the Lynx is back. While the game starts off with a bang, it seems to stall after a while as it becomes you to do the same things over and over again.

This is one of the best looking Lynx carts that I've seen in a long time. The graphics are very detailed and the animation is top notch. The sound support is weak as usual but that is expected. The game play suffers from repetition and lack of technique. This could have been a not cart, but ends up being above average at best.

This is a better attempt at programming for the Lynx. Dirty Larry incorporates some decent action with good music for a change. The colors are awesome, to say the least, and the cart is pretty decent. It does get pretty repetitive, however, but the enemies are good, nonetheless. I like the way they disappear. Yay.

TOP TEN COOLEST VIDEO GAME HEROES

When your video game world is in desperate need of a hero, who do you think of? By far, Mario has rescued more princesses, saved more lands, and defeated more bosses than any other character in videoland. Sonic came in a close second, and the new cat on the block Bubsy, took third.

MARIO

Unless you've been in a 10-year coma, you know this dude.

SONIC

A ballistic blue rodent with an attitude is on his way to the top.

BUBSY

The coolest cat to ever hit the video game scene.

TAILS

This sly fox wins you over with cute antics and amazing speed.

RYU

Best around street fighter in the world. Do you agree?

MEGAMAN

In his heroic cyborg stars in more sequels than Freddy Krueger.

SIMON

Master of the whip and fighting that guy with bad teeth.

BONK

This prehistoric dude is great at using his head.

ZITZ

Tougher than any turtle plus a ton of special moves.

BIONIC COMMANDO

Super Joe is finally making his way back in the gaming scene.

JAPAN'S TOP TENS

Japanese gamers really haven't changed their favorite games too much since last month. Dragon Quest 5 still remains the most popular title on the market, with Super Mario Cart and Street Fighter 2 close behind. Believe it or not Super Mario World actually moved up four places. Pretty impressive for a two year old cart!

DRAGON QUEST 5 SF

Great graphics and super challenging role playing from Enix.

SUPER MARIO KART SF

Nintendo's zany 2 player action makes this the racing cart to get.

STREET FIGHTER 2 SF

More techniques, more combos, and more fun from Capcom.

SUPER MARIO U.S.A. FC

Why not play Dream Factory instead? On we go, it's just Mario 2.

BEST PLAY PRO BASEBALL FC

This new baseball cart from ASCII looks promising. Why 8-Bit?

SUPER MARIO WORLD SF

With 96 levels to go through, Mario still wins the masses over.

SUPER DOUBLE DRAGON SF

Classic gang warfare action on with 16-Bit style from Tradewest.

KIRBY'S DREAMLAND GB

A new hero comes to the GB with Mario style action from the big N.

BIG BATTLE STRATEGY FC

Feel the need to conquer? Try this complicated war sim from ASCII.

RING THE FROG'S BELL GB

A strange, yet interesting RPG with action scenes from Nintendo.

It looks like Mickey is going to be some serious competition for Bubsy! This new cart from Capcom is absolutely incredible! The graphics are very cartoon-like and the attention to detail is evident. Superb game play also makes this a cart to look out for. Best of all, the game is almost finished and ready for release! Joy!

He's fat, he stinks and he's one of the best-loved characters ever to climb his way out of the primordial slime and onto your video screen.

In this rockin' new 16-bit adventure for your Super NES,

ROCKS PER NES!

you'll join Chuck Rock on his belly-bashing, odor-kicking, rock-tossing mission to rescue his wife Ophelia from arch-rival Gary Gritter. You and Chuck, who's equipped with a pea-sized brain and nuclear body odor, have to crush some pretty

strange characters, like the wild and wooly mammoth, one mean triceratops and a saber toothed tiger. Together, you and the Chuckster swim through swamps, travel up volcanoes and shiver your way through the ice age — all in the name of love!

Nineteen levels set in five prehistoric worlds. Eye-popping graphics and very cool animation. If you wanna rock, you gotta get Chuck Rock.

GAMING GOSSIP

...EA's 3DO Project Gets New Name...Atari Jaguar Specs Revealed to Programmers...New Sega CD Softs...
...World Heroes For SNES and Genesis...Tecmo Delays Genesis Super Bowl...New "Alien" Madden Game...

...Welcome once again to the Quartermann show, that special place with the super scoops that only a guru of gossip could deliver! There may be imitators, there may be critics, but the Quarter-freaks know that it's the only place in the world that you'll read about toasted ho-ho's...We've got some great goodies for you this month Q-pals, including the first info from a flurry of developer conferences. Yours truly was behind the scenes to capture reaction to the unveiling of the Opera, Jaguar and Sega CD, including the first news on some hot CD titles just over the horizon...

... First on the Q-Mann's agenda was a trip to the 3DO party. The mystery behind the EA-Matsushita-Warner was lifted, at least partially, to give potential programmers a chance to see what this 32-Bit super system is all about. Bellying up to the table with a RISC processor and multi-media interface, the 3DO machine has also been given the working name of 'Opera'. While the Q-Mann doubts that the system will end up with that name, the individual roles of each of the machine's investors has become clear. While EA creates the software (largely tapping into their own v.d game library), Matsushita's various brand names will simultaneously introduce the 3DO technology in several formats. The wizards behind the marketing of this mega-machine hope that sweeping compatibility will create the new 'standard' for CD technology. It's a good plan, but some boffo softs will be needed to score big consumer points since the hardware will hit the shelves in the \$500+ range. And rumor has it that additional features, such as full-motion video, will only be accessible through a separate peripheral attachment costing more dough!

...Atari, deady silent since the recent software shake-up, appears to be heading in the right direction for a launch, even if their dual 32-Bit RISC system doesn't quite have the muscle to take advantage of the coolest functions. Tramiel and Co. launched their unit to developers cross-continent, with software houses in both the U.S. and England considering support. Destined to display some hard-hitting visuals, let's hope the marketing masters don't toss a mojo on the machine by slapping on a high price...

...Finally, on the developers front. Sega formally brought programmers one-on-one with their new upgrade, the Sega CD. Although the big 'S' only showcased existing softs, a number of products were announced. While some developers were disappointed by the system, strong sales are working to make this CD format the one to beat. Regardless, expect Sega to dish out a steady stream of A titles, including Power Drift (one of the first games to take advantage of the Mode 7-type effects offered-up by the Sega CD), Virtua Racing (don't bet on it before the end of '93) and a line of educational software featuring Sega superstars...

...The Sega curse continues to haunt sports stars around the world! Its most recent victim, Evander Holyfield, joined the prestigious ranks of Tommy Lasorda, Buster Douglas, Pat Riley and Joe Montana (just to name a few) who have either lost, gone downhill, been injured or quit shortly after signing with the boys in Redwood. Could this be the beginning of a new betting system? Look for the SNK super smash punch-out, World Heroes, to migrate over to both the Sega and Nintendo systems soon...Electronic Arts is prepping a new breed of sports game! Blood and Guts Football introduces aliens and monsters in an all-out brawl that uses the game engine from the zippy Madden games...Look for a big announcement soon from Marvel Comics...Gaijars, Gaijars, Gaijars.. Due to an unforeseen delay, the folks at Tecmo have postponed the Genesis version of Tecmo Super Bowl until the beginning of the 1993 football season. You can bet that it will be even better by then...What a landmark event! The first Q-Mann column that doesn't mention Street Fighter 2! Rest easy Capcom, your secrets are safe with me...It's time to close things up on the Quartermann show, kiddies, but I'll be back next month with another bag full of gaming goodies! Get set for a special announcement in next month's issue! Until then, trust yourself and avoid Skid marks...

SONY SHELVES CD, DUMPS NINTENDO

In an article published on November 19, 1992 in the Nihon Keizai Shinbun, a leading Japanese business newspaper, Sony of Japan has decided to indefinitely postpone launching its own all-in-one video game system/CD-ROM console. This system, previously known as the Play Station, was to be completely compatible with the 32-Bit Super NES CD-ROM peripheral that Nintendo is working on. The two companies, just last month, had agreed to cooperatively market this Play Station jointly but, disagreement between Sony and Nintendo as to what direction the new system was to take led to the break-up. Sony envisioned their Play Station

Disagreements between Sony and Nintendo have forced Sony to shelve their Play Station.

would be a whole new game console with the very latest in chip and CD technology built in. Nintendo, on the other hand, only wanted its CD-ROM peripheral to be an extension of its Super Nintendo game system.

The Sony/Nintendo cooperative project began back in January 1990. Sony was to develop a Super NES and CD-ROM peripheral, combined in one shell. Nintendo was to provide the technical support and also market the Super NES system and CD-ROM as separate components.

Later in 1991 Nintendo teamed up with Phillips as the Big N thought that the new CD-I (Compact Disc Interactive) format which Phillips was marketing was to be the wave of the

Nintendo plans to continue work on their CD-ROM with or without Sonys cooperation.

ATARI PRICES JAGUAR AT \$99

Atari's long lost 64-Bit video game system - Jaguar is coming out of hibernation and getting ready to roar. At least to the point where officials at the company are starting to talk about the system.

The Jaguar is currently scheduled to be in the stores sometime during the Summer of 1993. It will contain a 64-Bit RISC-based processor along with new custom graphics chips that will allow for hardware scaling and rotation. Special attention is being placed on the music end, and additional chips will be in the system to allow for spectacular stereo tunes. Unlike many of the other newer systems that will be CD based, the Jaguar will be a cartridge machine. The games will have more memory

than the current crop of 12 and 16 meg Super NES softs but they won't be as huge as the Neo-Geo carts.

Best of all, Atari is shooting for a \$99 retail price but officials were quick to admit that after all is said and done the Jaguar could end up as high as \$150.

The first wave of Jaguar carts will include a sports game, a shooter, a flight simulator and a puzzle game. Two new titles will come out every month after the systems launch.

In order to hit the \$99 goal, the Jaguar will probably be packaged without a game, but Atari plans to offer a keyboard and a modem as optional peripherals. Atari hopes to show the Jaguar at the January Consumer Electronics Show.

future.

Last month, Nintendo renewed their interest with Sony and announced that the Play Station was back on.

Now, according to Sony, while last months agreement with Nintendo will continue in force, Sony wants to relook at the whole video game/CD industry. They could adopt Nintendo's and/or Sega's CD format to their future work or it's possible that Sony may decide to go out and develop a CD-ROM player to its own standards.

Sony has already committed to software development for the Sega CD as they have *Sewer Shark*, *Hook*, *Chuck Rock* and *Make Your Own Music Video* with *Kris Kross* in the stores now.

SEGA TO DEBUT NEW PERIPHERALS AT CES!

Officials at Sega have told EGM that the company will introduce several new Genesis and Mega CD peripherals and accessories at the Las Vegas Winter Consumer Electronics Show this January.

At the top of the list would be a new six button controller which they state will significantly improve game play and offer more options to the players. The first controller to utilize this six button configuration will be a modified version of their standard stick. This controller will have two rows of three buttons each and it will still maintain the same nine pin plug that is found on all of the Genesis and Sega CD systems. This means that this stick will be fully compatible with all older Genesis systems! While officials wouldn't either confirm nor deny that this controller was being specifically made for an upcoming release of Street Fighter 2 on Sega CD, the coincidental appearance of the new six button controller would tend to open the door for a 'game' that requires six buttons.

Also in the works is a new mouse peripheral for the Genesis and Sega CD. With Nintendo's mouse selling very well, Sega has announced that they will bring out their version early next year. While the exact shape and button layout still has to be finalized, Sega wants

Sega's newest peripheral is their 6 button controller! Now, with the controller a reality, could Street Fighter 2 be too far behind?

their mouse to fit comfortably in the palm of your hand and they are spending a considerable amount of time to get the shape perfect. Although the mouse will work with games designed for both the Genesis and Sega CD, the heaviest use is envisioned to be with the new point-and-click software such as the 'Make Your Own Music Video' discs coming from Sony and Sega.

Another peripheral that is already out in Japan for Sega's Mega CD is a karaoke interface. Although Sega's pricey all-in-one CD-ROM and game system - the Wondermega has this feature already built in, most Japanese players originally opted for the basic Mega CD peripheral and now they have the ability to add the karaoke interface. Karaoke, while starting to catch on slowly in America, currently just doesn't have the following that it has in Japan, and Sega of America is going to maintain a wait-and-see attitude about this device. Should

karaoke suddenly become the next national pastime, officials at Sega state that this device would then be brought out for the U.S. market.

Finally Tengen of Japan has recently demonstrated a working prototype of a four player adapter for the Mega Drive. Along with this new peripheral, Tengen was demonstrating a new version of the arcade class-

sic - Gauntlet. This new cart is the first Sega game which will allow for four player simultaneous action. Tengen currently plans to test market the peripheral and game in Japan and if there is sufficient demand for it, additional four player

Tengen will bring out a four player adapter along with a new version of Gauntlet!

games will be produced. Sega of America is likewise monitoring the sales of the multi-player adapter. Although, with the new five player adapter coming out from Hudson Soft (with the game Bomberman '93) for the Super Nintendo early this Spring, it is highly probable that Sega will need to follow suit with their own version of a multi-player peripheral shortly thereafter.

The shape of the mouse isn't finalized yet, but it is scheduled to debut in early 1993!

If karaoke catches on, Sega will be ready with an add-on device for their Sega CD.

STREET FIGHTER II Turbo Championship Edition

If you read last month's EGM, you'll no doubt remember our story about Capcom's new Turbo ROM Upgrade Kit for the Street Fighter II Championship Edition. You'll also remember our promise to keep all of you game mavins up to date about this hot news item. As promised, here's more juicy morsels about Street Fighter II to keep you all licking your collective chops.

As we reported last month, this upgrade kit for existing Street Fighter II Champion Edition cabinets will not only boost the performance of the street fighters, but it will enable the characters to do a bunch of new moves as well! The Capcom programmers have actually made it impossible for one character to be

inherently better than another!

As far as new moves go, there are a few brand new attacks; but most of the Turbo's fun comes from existing attacks that are merely enhanced. For example, moves such as Ken and Ryu's Hurricane Kick, Chun Li's Cyclone Kick and Blanka's Roll are now more dangerous! This is due to the fact that they will be done much higher in the air. The result of this simple addition to the game means that new strategies will have

Check out Blanka's new High Roll Attack! He will now be less vulnerable to attacks.

Ryu's Hurricane Kick is now a lot higher off the ground. Chun Li's fireball can't touch him!

• HOW IT RATES •

With its enhanced game play, new moves and improved animation, Capcom's Street Fighter II Turbo Championship Edition is tops in our book!

The best thing about this game, though, is the simple fact that many new strategies must now be learned and used because of the new goodies thrown in by Capcom

All of this aside, SF II Turbo CE is a great game! So why not a "10"? Well, since Turbo is just an upgrade and not a brand new game, we couldn't see giving it a "10" (although we'd like to!).

to be worked out by both the offensive and the defensive players! In a way, players will now have to relearn much of the game!

The Turbo is now in trial production and will be gradually increased if it is as successful as anticipated. Supposedly, the upgrade kit will increase the speed of the game by a whopping 20%! In layman's terms, this means that the game is **FAST!** How fast? Well, how does almost zero time lag in between moves sound?

Here is a list of some of the new angles that the Turbo's characters will have. Ken and Ryu will have a head bash as well as a simplified Dragon Punch. Shoryuken has never been so easy! Chun Li now has the ability to

throw a Dhalsim-like fireball. Supposedly Guile will have a head butt.

Rumor has it that he will be able to throw a Sonic Boom in mid air! Dhalsim can teleport to another side

of the screen in the blink of an eye! Sounds tasty, huh?

The game has been accelerated by about 20%! This means faster everything!

With a constant stream of news coming in from all over the world about this latest gaming sensation, you can be sure that we will try to keep you up to date on this one! Maybe, given time, the good folks over at Capcom will give us SF III! Until then, keep your eyes peeled for Street Fighter II Turbo Championship Edition. Shoryuken!

New moves mean new strategies and new techniques for gamers to learn!

Here it is, folks! The Street Fighter II Turbo Championship Edition!

The Mystery of the Disappearing Dhalsim

According to rumor, Dhalsim will now have the ability to disappear and then reappear at a different location! This will make him a much more formidable adversary.

The characters will be able to more effectively block attacks like fireballs.

And what about Guile? What new tricks does he have in store for us now?

All-New Animated Sequences!

Many of the animated sequences have been revamped and improved. In this sequence, Ryu is seen getting up from a knockdown in a very unusual way.

R-TYPE LEO

With intense graphics like these, R-Type Leo will turn your hair white!

This boss will vaporize you instantly if you're not careful! Thank your lucky stars that two players can play simultaneously!

Attention all shooter gurus! Guess what? Irem has listened to our tortured cries and has given us R-Type Leo! That's right, a sequel to the mega-popular arcade favorite R-Type! Rest assured, you will **not** be disappointed!

There have been some significant changes to the old R-Type. First of all, you are now given the option to play two players simultaneously!

This will allow you to have (prepare yourself for a bad pun...) twice the fun!

Second, the graphics, sounds, game play and overall feel of the game is second to none! As a matter of fact, the graphics are so highly detailed that it's almost eerie!

The bosses are **enormous** and the power-ups are

fantastic! If you get a chance to play one new shooter this year, make sure it is R-Type Leo by Irem! You won't be let down!

Strange worlds await you in this sequel to one of the most popular shooters ever!

THE GAME DOCTOR

Stalking the Wild Qs!

Welcome to the Doctor's waiting room: first question?

Q: Your column is great. I'm one of those 'old timers' who think the kids of today are too darned spoiled; remember when games were supposed to be fun? Anyway, I have a few questions for you.

A friend and I were chatting about an old arcade game and we want to pick your brain: was there a game called **UFO** that you sat in and revolved 360 degrees? I say there was, but my friend says I'm nuts. Also, what was the name of the game where the player drove an orange car through mazes while being chased by missile-firing enemies? Finally, what are Sega and Nintendo et al going to do when HDTV comes out?

Greg Wilcox
Bronx, NY

A: I vividly recall a game called **UFO** and it did involve a spaceship with a shield that rotated 360

degrees, but it was not an arcade game. It was a home video game from Magnavox for its Odyssey 2 system. I'd love to hear from anyone who can recall this game in coin op form, but I think you've got it mixed up, Greg. The game with the maze, the orange cars and the missiles was probably **Dodge 'Em** from Atari for its 2600.

We discussed the subject of High Definition TV (HDTV) in last issue's column, so check it out for a more detailed response. Briefly, however, there is a strong feeling that HDTV may never actually reach North America simply because it would require Congress to sanction a new standardized broadcast system and everything from existing TV shows to video game systems would all go out the window. Instead, most experts believe that innovations such as the 16:9 aspect ratio sets and digital TV will enhance the current display while maintaining compatibility.

LETTER • OF • THE • MONTH

Q: Are there any plans for the development of a peripheral that would enable Super NES owners to play two-player games simultaneously but at different locations?

I sure hope so!

Dwayne A. Brown
New York, NY

A: While Nintendo cannot confirm plans for a Super NES modem, a new company - Batan Technologies plans to bring out a "universal" modem that will allow NES, Genesis or Super NES players to compete against each other. Stay tuned to EGM for more info.

Q: One day I was going through the old games for my "ancient" Apple IIe. I found the game **One-on-One with Julius Erving and Larry Bird**. It still has the original box, disk and instructional manual. I was wondering: is this worth any money or is it just a relic?

Also I was wondering, with Sierra joining up with Sega to produce software for the Sega CD, will Sega (or some other company) produce its own version of a mouse?

Danny Aillon
Wichita, KS

A: Although I receive many letters here at the office from readers seeking out old computer and video games, so far there is no real "collector" cache attached to electronic games. Because of the fast moving nature of the hobby, old software tends to get discarded, which is good from a collecting standpoint, but we're still probably a decade or two from the point where people will pay big bucks to get working versions of antique software.

In any case, software-based entertainment has rarely been popular among collectors. Old 78 records, 8-tracks and other remnants of discarded technologies can be purchased for pennies. Even those very early Thomas Edison sound tubes can still be purchased at relatively reasonable prices.

As for the question of a mouse being added to the Sega controller lineup, indeed Sega is working on such a device (see page 58) and could have it in the stores this spring.

SUPER NINTENDO

Be CD-ing You!

Q: Ever since I've read your column in EGM I have been hooked. You've published many questions I have had myself. Here is my question: I want to know if the 32 Bit Super Nintendo CD-ROM would join to the existing 16-Bit Super NES like the Sega CD or would the 32-bit CD be like the Turbo Duo, a separate system?

David Lindo
New York, NY

A: According to an earlier announcement, Nintendo planned to release a 32 Bit upgrade and CD-ROM peripheral in time for Christmas '93. This would interface with the existing Super NES. A subsequent report revealed plans for a SONY-made CD-ROM Super NES combo system. Since that announcement, Sony has said its unit is temporarily being put on hold.

The entire situation concerning Super NES-compatible CD-ROM is completely uncertain now. Sony and Nintendo do have an agreement, but it is unknown if any hardware created under terms of that agreement will be for the Super NES. Stay tuned!

Q: I've heard that the Super NES CD ROM will be 32 Bit. How can the 16-Bit Super NES play CD games that are 32 Bit?

Chris Pepin
Escanaba, MI

A: When this comes out, the CD-ROM will contain its own 32-Bit CPU, which will either override the existing 16-Bit processor or work in conjunction with it. It's simply a matter of routing the central processing through the CD rather than the existing hardware.

Q: In the November issue, you told how CDs could play video games by having the data dumped into a buffer so there would be no searching and loading. My question is, can a cartridge be used as extra buffer space? I know you can help me with this one.

William Morris
Evansville, IN

A: Yes, the Turbo systems already use a similar process with the Turbo Chip. If it would be compatible with the Super NES hardware will be determined by Nintendo.

Q: I am a big fan of the **Phantasy Star** series, but I have noticed something rather interesting. I have the original game, **PSII** and **PSIII**. In **Phantasy Star**, up to five games can be saved at one time. In the sequel, that number drops down to four. In the third game of the series, only two games can be saved at one time. Why is Sega doing this, and what will they do when the player can only save one game at a time?

Jeffrey Adashek
Glendale, WI

A: Off the top of my head, Jeff, I'd guess that each subsequent game in the series required the system to "remember" more information, therefore taking up more space. Sega isn't doing it to drive you nuts, I promise you, but remember, as games become more complex, there are more spells, inventory items and other information which the program must keep track of in order to return your character to the correct situation and status. So, while you can't save as many games in progress as you might wish, you are getting better games to save.

Q: Does Atari have any plans for a TV tuner accessory such as the Game Gear and Turbo Express have?

Rob Bond
Kenora, Ont., Canada

A: At the moment Atari has no plans to produce a TV tuner to interface with the Lynx. Rob. Sorry!

INTERNATIONAL NEWS

One of the most evident signals that the U.K. game players can't get enough of their systems was the overwhelming number of gaming magazines that filled the airport book store. Most of the dozen-plus I saw were machine-specific, dishing out game news on whatever console found their favor (the Genesis, er, I mean the Mega Drive seemed

to be the leader of the bunch). None of the mags was as current as the U.S. crop, but since most of the games come out in the European market after we see them that was O.K. Most of the mags I read sounded like they were coming from the same die-hard game players that produce EGM, except the U.K. contributors cut to the chase by comparing a bad game with a bad experience like getting sick all over yourself in the backseat of a car...not exactly the most pleasant read I had on the plane back home!

Anyway, I've got all of the import news that's fit to read, so sit back and let me get the frequent flyer miles!

MR. AKI BEATS THE STREETS OF JAPAN...

Back in the homeland, I fought off the jet lag from my world-wide trip and got down to the business of gaming. I quickly shot down to the local gamer hangout where talk still centers on the much-delayed 16-Bit Dragon Quest 5. I can't wait until this game comes out so everyone will quit complaining about how it isn't out! One of the hottest titles to recently hit the streets, however, was Sonic the Hedgehog 2!

While Dragon's Quest 5 remains on top of the Japanese charts...

...Sonic the Hedgehog 2 quickly captures a spot in the top five!

The usual bunch of simulations and RPGs are also scoring high marks this month in Japan. The recent announcement of a sequel to MOTHER, the self-contained RPG universe created by Konami, brought anticipation of another sequel to the streets. Mother 2 is slated for release early next year, but already the game players are reserving copies!

Konami's new Picto art tablet offers drawing tools for the SNES!

HAVE ART TABLET - WILL TRAVEL...

Realizing the success of Nintendo's Mario Paint program, the cats at Konami have created a peripheral that goes one step beyond the big 'N's drawing mouse.

The latest Super NES upgrade from Konami is called Picto and it enables animation enthusiasts to actually "draw" pictures on the television screen via the 16-Bit game system.

By calling up a variety of color menus and using a special light pen and board, the Super NES knows what colors to use and where to put the pixels down for your final pictures. You have complete control over your masterpiece from start to finish.

While the secondary uses of a mouse peripheral are evident, additional applications for the light board seem limited. Still, it would be fun to have access to the same type of electronic paint studios that computer artists use. The unit does weigh in at around \$200 bucks, admittedly a bit hefty, but if you're really into on-screen animation then Picto appears to be the only avenue budding artists will have to explore for some time to come.

FEEL THE HEAT!

The Soviet-made T-72 tank turns toward you and fires. A near miss—its shell bursts with awesome force. You return fire and the enemy explodes in a furious blaze. This is Operation Desert Storm. You are the commander of the M1A1 Abrams battletank—the most powerful ground assault vehicle ever built. It's up to you to search for and destroy heavily-armed enemy tanks, helicopters, SCUD launchers, and strongholds before they blow you off the map. The combat is intense, loud, and lethal. And you only have to go as far as your living room and your Super Nintendo™ or Genesis™ system to feel it.

CAPCOM	SUPER BUSTER BROS. ★ ★ ★ ★
SUPER NES	LEVEL SELECT

Super Buster Bros. is a game that can be quite challenging at times. There might be a level that you just can't get past and you don't know what to do. Never fear, because we at EGM have come upon a level select code that will let you start from any level in the game! This is how to do it. At the title screen, press START. You will now see a screen that

says "Select Game" at the top. At this screen, press these buttons in this order: L button, R button, R button, L button, UP, DOWN. Once you do this, a number will appear in the middle of the screen. This is the level number that you will begin on when you press the START button. Use the control pad to change the number of your choice.

Press START at the title and at Select Game, do the trick.

The number of your level will appear in the middle.

ACCLAIM	SUPER SMASH T.V. ★ ★ ★ ★
SUPER NES	FIGHT NO ENEMIES

In order for this trick to work, you must first enter the Circuit Select code (at the option screen, press RIGHT, RIGHT, UP, DOWN, R button, L button). After you enter this code and choose where you want to start, go into the game, but before you enter the door into the next room, press and hold the SELECT button. Once you enter the room, there won't

be any enemies to face. After a few seconds, a voice will say, "Let's go," and it will show you which exits are open. Before you go to the next screen, hold SELECT again, and the same thing will happen! Repeat this through the whole game and you will beat it in no time!

Edward Ovalles
Jersey City, NJ

Enter the Circuit Select code and go into the game.

Hold SELECT before you enter a room and face no one.

SUPER NES	CLUES AND ALTERNATIVE ENDINGS

On page 11 of the book for this game, you will learn that Wits' name is really R.L. Wright. This is actually a code name for a sequence of commands to do on the controller. When you see the island and the text at the start of each chapter, press the following buttons in this order: R button, L button, R button. A secret text paragraph will be revealed that will give you clues for certain levels.

This is a method to reach one of the alternative endings. In Chapter 1, Part 1, make your way to the end of the second brown cliff face section, jump on the first rising platform, and then to the next platform. Ride this platform all the way to the grass at the very top left. There is one brown box to the far left of the grass. Pick it up and you will go into a tube that will take you to an alternative ending to this level. Now on page 9 of the book for this

game, Storm meets a Black Mask on a stone bridge. There is a sign that says "Danger" just before the bridge. Storm gets rid of the Black Mask by throwing a brown keg at him and knocking him off the bridge. (Refer to the illustration in the book.) Now, when you are in the alternative ending, start running right, and look for the stone bridge that has the sign saying "Danger" in front of it. There will be a brown keg next to the sign. Pass in front of the keg to kill the flying bug, go back and pick up the keg, and carry it with you to the right. Jump onto the stone bridge, and you will see a Black Mask coming at you. Throw the brown keg at the Black Mask (just like Storm did in the book) and another tube will come up and take you to a secret Fantasy Zone. Exit via the blue gem and go back to finish the rest of the alternative ending to complete the level.

Press R, L, R at the start of each chapter to see secrets.

In Chapter 1, Part 1, jump on the first and second platform.

Let the second platform take you up to the grass. Run left.

Get to the brown box, pick it up and you will be warped.

After warping, find the barrel by the "Danger" sign.

Get the barrel and throw it at the Black Mask to warp again.

SUPER NES	3-UP LOOP FOR 99 MEN

On level 5, when you are in the caves, there is a 3-Up loop that will give you as many lives as you need. At the start of the level, fall down the first chasm on the right. You will see Tinkerbell at the bottom of the pit. Walk or fly across to the right, and you will see a 3-Up and a leaf. Go underneath the rocks to reach this. Die and repeat for many lives.

THE ONLY GAME IN TOWN

Take It To The Streets...

CRASH 'N' THE BOYS™ STREET CHALLENGE

"Crash" Cooney and his posse from Southside High own every sports record in Spring Hill history. Legends? Heroes? Not in this town—where Todd Thornley and all the rich snobs up on the Hill think Southsiders are low-lives.

So Todd and the silver-spoon mama's boys at the three "Hiller" schools have issued a desperate challenge to save their fading reps: Let's take it to the streets in the Southside...no rules...no refs...no penalties—and we'll see who comes out in one piece.

And just in case the Hillers can't handle Crash 'N' The Boys, Todd's rich daddy has fielded Team Thornley—a ringer group of super-athletes from Thornley Industries.

Five radical events. Five motivated teams. Five members per team. Only one winner.

Southside's Crash Cooney sets another 400M Hurl-les course record. Crash and the Southside Boys—Cheese, Noise, Dragon and Sling-Ray—put the Hillers to shame.

Todd Thornley targets to let go and takes a ride in Hammer Throw Golf. His Washington High team has been humiliated by Crash once too often. This time it's personal!

"Spreck" Spreckles, Jefferson High's captain shows his lethal moves in the Water Slaughter. He thinks Lincoln and Washington are almost as bad as Southside. Almost.

Artie Van Smythe vaults from rooftop to towering rooftop in the Skyline Scramble. Lincoln High's team captain despises the Southsiders—especially Crash.

Rocky Rockowitz makes use of the devastating super kick in the Judo event. The elite, computer-controlled Team Thornley is out to crush Hillers and Southsiders alike.

Tie-Breaker Questions

The tie-breaker questions will determine the winner if two or more entrants have achieved the same qualifying time in any of the events. Make sure you answer both questions

THE ANSWERS TO THESE QUESTIONS MUST BE WRITTEN ON A PLAIN 3X5 PIECE OF PAPER ALONG WITH YOUR NAME, AGE, ADDRESS AND PHONE NUMBER TO QUALIFY FOR THE TIE-BREAKER

Question 1:

What gift does Todd bring Team Thornley at the airport, in the victory animation sequence following a 1-player Tournament victory by Southside High?

Question 2:

How many gold medals are available on the Hammer Throw golf course?

Win Your Share of \$5,000 Cash!

Show The World Just How Good You Are...And BAG BIG BUCKS!

In May, 1993 American Technos and Electronic Gaming Monthly will award a total of \$5,000 IN CASH—to the country's top gamers. We'll dole out the dough to the top five record holders in each of four **Street Challenge** events: 400-M Hurtles; Water Slaughter, Skyline Scramble; and Judo.

You'll be able to keep track of the current world record and record-holder right here on our World Record Holders Board—which we'll update each issue between now and March.

Can you get your name and record up on the board for the world to see? Even more important, can it stand up against all

challengers month after month until we make with the moolah? Remember, you're goin' up against the best—and, just like you, they can't wait to get their hands on some serious coinage.

Contest Rules

Please Read All Rules Carefully!
1. To Sign Up: Send a photo of the game screen showing your best time in PRACTICE mode of any of the four listed events to: "TIE Take The Challenge", 2401 Broadway, Suite 103, Redwood City, CA 94063

Write your name and phone number in ink on the back of your photo for street location. Folded inside on the front board. Then, on a 3x5 piece of paper label print your name, address and phone number, as well as your answers to both Tie-Breaker Questions 1 and 2 listed here on the World Record Holders Board.

(See Tie-Breaker for info)

2. Entry Restrictions: Entries must be from the game's PRACTICE mode in order to qualify. In Practice Mode you are not able to buy extra power-ups, to keep everyone competing on equal footing.

3. Photo Requirements: After completion of an event in PRACTICE mode, wait until after the "WINNER" announcement completely appears. The screen will automatically pause. DO NOT PRESS ANY BUTTONS. With the game paused on this screen you can take your time to shoot your picture. After you have taken the picture, press the start button to resume game play. Any entries not adhering strictly to these photo requirements will be disallowed. Also, the entries or tampered photographs will not be a game. Original negative may be requested from winners if contest sponsor desires. The decisions of the judges are final. Sponsor and/or affiliated companies are not responsible for lost, altered, destroyed, undelivered or otherwise damaged entries.

Photo tip: If your camera's flash fires it may well wash out the TV screen and your score will be unreadable. Consider your own camera use as to how to take pictures of a TV screen. Follow-up or other copies are acceptable. No slides. Entries will not be returned.

4. Prize Limitations: Entry is often as you win in any of the four events. Does not include Hammer Throw Golf! However, only one entry from each contestant; the best time on a 1-1 from that contestant—will be considered in each event; upon completion of this contest. Awards will be in fact to each cash prize per hour and per event, or no more than four total cash prizes per household.

5. Cash Distribution: Cash prizes to be awarded will total \$5,000. A total of \$1,250 for each of the four events, will be subdivided as follows: First Place: \$650 Second Place: \$350 Third Place: \$150 Fourth Place: \$100 Fifth Place: \$50

Winners will be notified by phone and/or certified mail. Winners' names and prize information may be used by Electronic Gaming Monthly and American Technos for promotion and/or advertising purposes without further compensation.

6. Tie-Breaker: In the event of a tie, where two or more entrants have the same winning time, the contestant with the correct answers to both tie-breaker questions will be declared the winner. In the event that the contestants have answered both questions correctly, the applicable coin or roll will be divided evenly among them.

7. Entry Deadline: Entries must be postmarked no later than March 31, 1993. Winners names will appear in the May/June 1993 Edition of Electronic Gaming Monthly.

8. Contest is NOT open to employees of American Technos, Inc., Santa Publishing Group Inc., or members of the immediate family, affiliates, subsidiaries, advertising and promotion agencies and printers. All prizes are for awarded. Taxes are the responsibility of winners.

9. For a list of winners, send a self-addressed stamped envelope to: "TIE Take The Challenge", 2401 Broadway, Suite 103, Redwood City, CA 94063.

NEW SOFT NEWS

With the Christmas season over and done with, we now gleefully await the upcoming Winter CES held every year in beautiful Las Vegas. The companies that weren't able to get their games out by Christmas will now push their future releases at this convention. Here is but a brief list of what we are to expect from the Winter CES show!

Accolade is developing their baseball game going by the very long title of Al Michaels Announces Hardball 3. • Can't get enough of that lovable Yoshi? Well, in addition to Nintendo's NES and GameBoy releases of Yoshi's Cookie, BulletProof Software will release the Super NES version. • Electronic Arts is still hot on the scene with Tony La Russa Baseball for the Genesis. • There is also an upcoming release of Populous 2 for the Genesis and a possible release for the Super NES. • Electro-Brain is working on Best of the Best Championship Karate for the Genesis.

Koei, the masters of simulation titles will unleash Aerobiz for the Genesis and Pacific Theater of Operations for the Super NES. • Razorsoft is taking a gamble on Hooves of Thunder, a horse racing game for the Genesis. • From Seta, we can see Cacoma Knight on the horizon. • T.T.I. will bring out Shockman 2. • Exile 2 will arrive from Working Designs.

U.S. GOLD

FLASHBACK

GENESIS

12 MEG

CARTRIDGE

A hop on the subway system can whisk Conrad to new parts of town.

Way back in the September issue of EGM, we showed you pick of this hot game in our International Outlook section. Since then, U.S. Gold has picked up the rights to this game, given it a quick plot change and has now dubbed it Flashback!

As the story is told, research scientist Conrad was preparing his thesis about the transmutation of matter. Wearing a special set of glasses, the scientist was able to view matter directly in order to analyze it. However, he happened to notice that many top-ranking officials at his plant had a structural density beyond that of a normal human being. This is because they were aliens from another world studying Earth and making plans for domination.

This tragic observation turned Conrad into a prisoner where he must use all his natural abilities to escape this trap and blow the lid off this cover-up. Your escape will take place over six huge stages where a stolen space bike and a gun are your only hopes for survival. Incredible animation is made possible by the detailed rotoscoping technique!

Lost in a world unknown to him, Conrad can trust no one but himself.

Alien guards are a constant threat but your blaster can crisp 'em easily!

Why have the aliens come? They plan to take over Earth for their own needs.

With Conrad's memory wiped out, he wanders the city in search of identity.

ACTIVISION

ALIENS™ VS. PREDATOR™

SUPER NES

8 MEG

CARTRIDGE

All you readers of the Dark Horse comic series, wait no more as Activision has the mondo game for you!

You, play the Predator out on your big hunt! Your first encounter takes you through a small human colony but you find that Aliens have taken it over. Using punches, kicks and a quick and deadly sliding maneuver, you must kill off all of the aliens and face Huggers that have taken over the colony.

Finish that stage and you then transport to the Aliens' home planet where four more perilous stages await you with spectacular cinematics and great animation. This cart really brings the feel of the comic book to life!

Aliens™ and Predator™ are trademarks of 1989 Twentieth Century Fox Film Corporation

In the verses mode, two players can assume the Alien and Predator roles.

Take on all sorts of mutated monsters as you journey through the colony.

ENIX

EVO

SUPER NES

12 MEG

CARTRIDGE

Let's take a trip back to the beginning of time. The game begins on a desolate planet, without any life-forms. Based on the theory of evolution, Enix's new game starts you off as a lowly fish and you must survive the perils of the ocean.

Evo is the cross between an action/shooter and role-playing game. The shooter aspect comes in when your 'fish' attacks other creatures in order to collect Evo Points which help your character evolve. The action scenes take place on land after you evolve into an amphibian.

You must continually strive to evolve, taking on new challenges in the ever-changing world.

Your first form is a small fish-like creature with limited capabilities.

As you evolve, fins and stubby legs develop in the second stage.

Although you have evolved to stage three, you must be wary of sharks.

RENOVATION

DOOMSDAY WARRIOR

SUPER NES 8 MEG CARTRIDGE

Renovation has picked up the rights to do this one-on-one fighting game, Domsday Warrior.

Play as Amon, a determined young warrior out to prove his worth to the heavenly gods. Only by beating them with punches, kicks, and an assortment of super secret attacks can he finally return to his resting place.

Become the true warrior before the doomsday finally comes.

In the early stages of each round, the enemies are weak but have stamina.

X-MEN

GENESIS 16 MEG CARTRIDGE

Follow the adventures of the X-Men as they tackle the forces of evil to search for Professor X!

Take command of Wolverine, Cyclops, Gambit, and Colossus. Power them up in their danger room and get set to lead them through seven enchanting stages.

Stay with your selected character or alternate them depending on the enemies that you'll face as you attempt to save your mentor!

Wolverine can slash through anyone or anything with his vicious claws.

ASMIK

LENNUS

SUPER NES 12 MEG CARTRIDGE

Rest up at the Inn and purchase some hard to find items for your quest.

EGM was also the first to break the news about Asmik's super RPG, Lennus, back in the April issue. Although this cart was previously shown in the Next Wave section, many changes have been made and we feel that another look at this game is necessary.

12 Meg may not seem like much in the present days of CD-ROM and 16 Meg games, but Asmik has crammed a lot of game into this cart. The over-worlds haven't changed much but they are still done with pastel colors for a different feel.

You can still have three other characters in your party as you travel the countryside in search of riches and fame. The landscapes take place on two planes with lands that seem to hover above the planet!

Combat takes place in a first person perspective where the mutated beasts strike with magic and physical attacks. You and your party can fight back with swords, arrows and magical techniques that will entice all players.

Ride the dragon to explore previously unreachable landscapes.

Within the caves, you can find a mythical treasure to raise your status.

An evil bubble blower? This may seem cute but those bubbles can stun you!

New lands are not accessible until you can find a bridge-building character.

This small town doesn't hold much wealth, but it's a good place to relax.

Polly want a cracker? Heck no! These airborne beasts want a quick snack.

SPELLCRAFT

SUPER NES UKN. MEG CARTRIDGE

Uncover the secrets of magic and mystery as you attempt to save the Modern and Magical Worlds from blowing each other to pieces. You have been unwillingly drawn to Stonehenge where you must use your new abilities to save these warring worlds.

To succeed, you must successfully mix potions together and learn how to cast spells properly or you could end up accidentally casting your own death spell!

Begin at Stonehenge and work your way from there. Travel between the two worlds to receive ingredients for your potions. Superb graphic detail in the backgrounds have to be seen to be believed! Join in on the spell-casting fun!

Ah! This dragon doesn't realize that you've created a spell to paralyze it.

This set of bones doesn't tell a very promising story of what's up ahead.

Water worlds behold many surprises with booby traps to snare you in.

CHAKAN: THE FOREVER MAN

GENESIS

8 MEG

CARTRIDGE

Chakan has travelled from the pits of hell and is now an exciting Genesis title! Play the part of Chakan, a one time warrior priest who is doomed to wander the Earth until he can vanquish the beasts that have put this curse upon his soul.

Chakan must use weapons like machine guns, two handed axes, and flame throwers through eight starting levels but then four more levels await your undead soul.

Collect magic potions that grant you special abilities like visions into the future, invisibility, super jumps and many others!

Begin in the paradox between universes where you select from four beginning doorways where you must slay a beast keeping you from your only goal...death.

Prepare yourself for a grueling test of jumping skills in these elevated cliffs.

These slimy water beasts attack with a scepter when our hero looks away.

BOMBERMAN '93

TURBODUO 4 MEG CARTRIDGE

T.T.I. has picked up the rights to this awesome sequel to one of the most popular puzzle games ever to hit the Turbo.

At the title screen, choose from a variety of options that include a one player normal game, a five player battle game, or link up two TurboExpresses for great portable action!

The object is to strategically place bombs to wipe out boulders and enemies. Certain boulders contain power-ups like speed-ups and larger bombs. You must continue to bomb everything until you locate the exit warp.

The real fun is the five player game where you and four other friends compete to stay alive and gather up the points.

The abundance of power-ups include speed ups to move you along quickly.

The bombs can get bigger and better as you collect more bomb icons.

Five players are set in an arena and only the strong can survive the odds.

CARTRIDGE

Nintendo's latest trend seems to be puzzle games that focus on the Dr. Mario and/or Tetris theme. Yoshi's Cookie is a new puzzle game starring Mario's famous dinosaur buddy!

The object is basically the same as many other puzzlers. Catch the falling pieces and organize them so they clear out a row of four simultaneous shapes. As you clear out the shapes, a meter fills up and you can win bonus points and other prizes.

Plug in a second controller so you and a friend can simultaneously compete in these high energy games. Challenge each other in speed games to see who can complete more lines first or just have a simple catch-all game.

Here in round 7, the play pieces fall in very unpredictable patterns.

Two players can battle it out for points or just good 'ol bragging rights.

NINTENDO

YOSHI'S COOKIE

GAMEBOY

1 MEG

CARTRIDGE

And now, for those who feel they must have the comical antics of Mario and Yoshi wherever they go, Nintendo also introduces Yoshi's Cookie for the GameBoy!

Featuring many of the same play mechanics as the NES version, you and a buddy can video link your GameBoys for head-to-head excitement!

The lack of color doesn't detract from otherwise smooth game play! You and your opponent can catch the falling pieces and match them up with similar pieces in the existing rows. Wipe out as many as possible to fill up a meter displaying the kinds you've cleared.

After filling the meter bar to the end, you or your opponent can receive power-ups and a plethora of bonus points.

Think fast! This game plays even faster than the other puzzle games.

Choose your playing character from the ever popular list of characters.

BEHIND THE SCREENS

THE MAKING OF ROAD RASH 2

What if?

Wouldn't it be cool if you had a favorite hobby or sport, had the talent to create a video game, and made a game that not only lauded your hobby, but let you do things in the game that you would never do in real life.

That's exactly what Electronic Arts producer Randy Breen has done

with Road Rash and the soon to be released Road Rash 2.

What was?

Breen is an avid motorcycle enthusiast who frequently rides his Yamaha FZR-1000. "I love riding my bike," he explained, "and I wanted to make a game that added an element of action not usually found in racing games."

Saying Road Rash has an element of action is certainly an understatement.

And in Road Rash 2, the adventure gets even better.

What is?

Road Rash 2 is the product of a dedicated team of three programmers, five graphic artists, and four track builders at Electronic Arts, that successfully takes gonzo cycling to new levels.

Breen and his crew have made a game where you can not only smash computer opponents or yourself while zinging along on a super-bike - you can now smash your best friend.

The two-player split-screen mode featured in Road Rash 2 is the most obvious improvement over the original version.

Pick a bike - your view is on the top half of the screen. Have your friend pick one - his view is on the bottom half of the screen. Work as a team, or knock your buddy senseless with a karate chop to the head at 90 mph. The choice is yours.

"By expanding to an eight-megabit format, we were able to make substantial improvements to the original Road Rash, which was five megabits," Breen explained.

"The split-screen mode is certainly the most significant difference between the two games."

In two-player mode, you and a friend can race with or without the presence of computer

opponents. Breen revealed that a good way to explore the game is by playing in the one on one mode.

"You can choose any bike, go to any track, and choose any weapon. The one left standing is the winner," he said.

The one player mode has also been revved up with new features.

"We spent a lot of time improving the interaction between computer opponents and the driver(s)," said Breen. "The opponents in Road Rash 2 are much less predictable and much more peaky, particular

at higher levels."

Opponents also have more distinct personalities. Some are more interested in the road in front of them than they are in you, while others seem intent on bashing you into the blacktop.

Another added feature to Road Rash 2 is the steel chain. This weapon allows the racer to wreak unprecedented havoc on his unlucky opponents. As one would imagine, a steel chain to

Randy Breen of EA headed the team that created Road Rash 2. Breen and other RR2 members are avid motorcycle enthusiasts.

a driving rainstorm is difficult and dangerous, but doing so while an opponent is frantically trying to bury a club in your rib cage would pose a unique challenge. "The

hard-ware just wasn't fast enough," Breen sighed.

But Road Rash 2, working within the limitations of the Genesis, seems to have struck the perfect balance between graphics, playability, and tempo.

What will be?

With the release of Road Rash 2, the inevitable question is: Will there be a sequel to this sequel?

"So far, nothing has been signed," Breen said. "But I'm thinking about it. If there is a Road Rash 3, it would have to be dramatically different in looks and gameplay from the first two. We'll have to wait and see."

Meanwhile, Road Rash 2 seems destined to rocket to the front of the pack of hot carts for the

Christmas season. Now if I could only find my black leather jacket.

the chromium will cause even the burliest biker to yield. **What might have been**

Even though Road Rash 2 is packed with improvements that clearly make it a better game than its predecessor, Breen said there's still some things he had to leave out.

"When creating a game, you're constantly making compromises," Breen said. "You have to design a game to work within the constraints of the hardware it will be used with."

"One of the guys who worked on the game owns a Harley Davidson and wanted to put that style of bike in the game," Breen said. "But if we did that, we would have had to sacrifice some other aspect of the game, such as slowing the game speed or using more simplistic backgrounds."

Weather is another feature Breen would have liked to have added to Road Rash 2. Riding a motorcycle in

THE GREATEST PLAYOFFS IN NBA HISTORY.

It's showtime. Bulls vs. Lakers & the NBA® Playoffs.[™]
The new updated version of the game awarded
"Genesis Sports Game of the Year"
by Game Player's.

Bulls vs. Lakers raises pro basketball to new heights. With twice as many teams: all 16 of the 1991 NBA playoff contenders plus both All-Star squads. More signature moves and more tasty dunks than a donut shop. Better defensive control

and shot blocking. Even the exclusive EA SPORTS[™] "T" Meter[™] to help you sink those critical free throws.

And, of course, you get to play with the best guys ever to lace up a pair of hightops. High altitude acrobats like Jordan, Drexler, Kemp, and Malone. Dead-eye shooters like Bird and Mullin. Rebounding monsters like Barkley and Hakeem.

Use the EA SPORTS[™] "T" Meter[™] to control the power and accuracy of free throws. Sink your shots or sink your team.

The expanded coverage includes instant replays of everything that happens on the court. Timely stats. Scores from other SPORTS pre-game and half-time show.

BEHIND THE SCREENS

the MAKING OF

PHANTASY STAR IV

Mention role-playing games to any Sega player and the one game that always comes up is *Phantasy Star*. Not only is it the most popular Sega RPG, but it also is the game most players want to see another sequel made. Having heard rumors this last summer that the fourth in the series was about to be started, the EGM editors packed their bags and headed out to Japan to interview the design team working on PS4 to find out the latest scoop on this super secret sequel.

Working quietly in one of Sega of Japan's R & D labs were the three main people of the PS4 development team. The head of the team is

Mr. Minoru Kanari, Manager, Consumer Products R & D Department; "Reiko" is the crew chief and "Tohru" is the head programmer and designer. Together they create the game concept, the character artwork and supervise the programming and day to day activities.

When we arrived, the development team had just finished the storyline and started working on the actual layout of the game. They expected that the game would be completed

The key people in the PS4 development team: Mr. Minoru Kanari, "Reiko" and "Tohru".

near the end of 1993. Although the programming hasn't been started yet (they did give EGM copies of the artwork to be used in the game), Mr.

THE EVOLUTION OF THE PHANTASY STAR RPGS

PHANTASY STAR 4

The goal of *Phantasy Star 4* is to take the best from the first three games and to go beyond anything done to date on any system. Their plans for the three main parts of this FRPG include:

BATTLE SCENES:

In this version, the developers plan on continuing to use the point-and-click icon fighting control similar to that found in PS3. This has proven to be a lot simpler than anything used in the past. There also will be more background detail, and the enemy and characters will have smoother animation and more realistic attack moves in the fighting sequences.

CAVERNS:

PS4 will make more use of the multi-level scrolling backgrounds as found in PS3. There will be more mazes, both underground and multi-story castle-type and they will also be much more complex with a lot more enemy to fight.

OVERWORLD:

The developers hope to show the above ground cities and countryside in a manner that will have more of a 3-D perspective rather than a straight overhead view. There will be three times as much area to explore, including three planets, two satellites and a yet unnamed mystery area.

Kanari was able to discuss the story line and how this sequel will tie in with the previous versions of the game.

As to the time line, PS4 will not be a sequel to PS3. Rather, Reiko stated that PS4 will begin about one generation after PS2. With PS4 so chronologically close to PS2, some of the main characters in PS4 will be related to the heroes of the second quest: Reiko states that there will be a maximum of five characters in the game. You will start out as Rudie Ashuru and as you explore the main world you will find the other characters who will want to join you on your quest. Each character will have certain strengths, weaknesses and special abilities.

Rudie is a hunter and he will be a strong fighter in battles. His main weapon is the sword. Later you will find Saei Uorushu.

She has very strong magical powers but very weak fighting skills. The third member of your party is Fuaru. He is a neo-human and has no primary trait. His fighting ability is only average and he can cast only a couple of different spells. The fourth member of your group is Fuoren. He is an android and has exceptional

Dark Force will be back again in PS4!

Saei Uorushu is a mystic. Her main trait is her ability to cast very powerful spells, strength and great fighting abilities. The fifth person has not been identified yet.

The game will only go on for the life span of the main characters, though. It will not continue for generations as PS3 did.

PS4 will take place in the same solar system and on the same world as PS2. However, in this version, there will be a total of 3 planets, two moons and one more mystery location that will have to be explored. One of those new moons will now be circling the home world and it will play a very important part in your quest. The whole game will be at least three times as large (explorable area) as PS2. There will be three times as many things to do in this version including exploring maze-like underground caverns.

dark, monster-infested mechanical dungeons and large castle like structures with tons of hidden rooms and surprises.

Reiko states the every effort is being made to make PS4 better than the previous versions. There will be more detail in the cities and countryside. There will be more people to talk to and more things to do and see. There will be double the magic spells and a lot more weapons to get and use. The fighting scenes will be more realistic with better backgrounds and more character animation. The easy to use point-and-click icons from PS3 will again be utilized. The caves and mazes will have three or four levels of parallax, giving the overall impression of great depth.

Rudie Ashuru is a descendent of one of the four main characters from PS2.

It has been a long time since we saw a good RPG from Sega. PS4 has the potential of becoming their next mega-hit but unfortunately it will be quite a while before we see an English version. Until then, you can count on EGM to keep you informed on all of the latest developments.

BUBSY

The Bobcat

1993 - THE YEAR OF THE BOBCAT!

Watch out! A certain bobcat is rearing to let its claws loose upon all Super NES owners! Enter Bubby, a cat that will probably be a trend-setter for all forms of games as well as cartoons everywhere! Bubby goes where no cat has gone before, and that is to 16 meg filled with sizzling animation and some of the most cartoon-like graphics you will ever lay your eyes on! Cartoon is the word, and you will get at least 20 forms of it! Everything from shooting birds away from your head when you get

dizzy, to fighting one of the enemy characters is presented in great detail. Bubby delivers some of the slickest animation that has ever been offered in a game. Not only that, but the sounds will range from a child's voice all the way to a cat hissing in a fight. What

we have here is only a preview of what is sure to be one of the biggest blockbuster of the year! All of the sights, sounds, and animation make you feel like you're right in the center of a cartoon. Don't forget to look for some hidden power-ups while having fun (you can easily forget when playing this

game.) Stay tuned for more info on the adventures of your favorite bobcat!

THE MAGICAL QUEST

Starring Mickey Mouse

IT'S A SMALL WORLD AFTER ALL!

Poor old Pluto has been kidnapped (or is it dognapped?) by the evil Emperor Pete and is going to get a curse put on him if Mickey doesn't find him in time.

Get ready for one of the most graphically impressive games that ever hit the Super NES! This animated adventure features six beautiful landscapes filled with Disney-related creepies that will do

HAR HAR!
Let's see ya get to me in this land!

their best to lay you to rest! Strap on special suits with magic abilities to help you in your search for Pluto. Spray the enemies with a hose, toss items or throw magic fireballs at every nasty you run into! The graphics do Disney supreme justice, making you feel like you're in one of their animated movies rather than just a cutesy action game! The animation is top notch and is filled with some incredibly hilarious over-the-top. Stay tuned for more on this great cart!

CHECK OUT THE MANY FACES OF MICKEY!

REGULAR MICKEY

Mickey can grab items or enemies and give them a good spin toss!

FIREMAN MICKEY

Hose down the buggers with a blast of concentrated water!

MAGICIAN MICKEY

You now have magic fireballs that have three intensities!

CLIMBER MICKEY

Mickey is given a suit that can latch onto ledges or grab items!

TREETOPS

Practice for a bit in this level, here you can find some special hidden doors that will reveal power-ups!

This snake has sections that come off each time you nail it in the head.

This massive bird will fly at you head on or drop small birds or egg yolk on you.

Don a climbing suit and head up the mountain. Watch out for the wind tunnels and other obstacles!

PETE'S PEAK

DARK FOREST

Grab the Magician outfit and blast everything in sight! Swim through the tree sap and get to the end!

Watch out for this rotating spider that charges at you while shooting webs!

This cool boss skates and flips on the ice halfpipe and spits snowballs at you!

Should you slip on your firesuit (hey, I made a funny!) your water can freeze to form steps!

ICE MOUNTAINS

FIRE GROTTO

Don a climbing suit and head up the mountain. Watch out for the wind tunnels and other obstacles!

Use the hose to cool down this creep. He sets the platforms on fire for a hotfoot!

Emperor Pete is ready with magical firepower and spells just for you!

Here's the final showdown! Fly on magic carpets or climb your way up to Pete. Watch for false doors!

Congo's Caper

CONGO BONGO

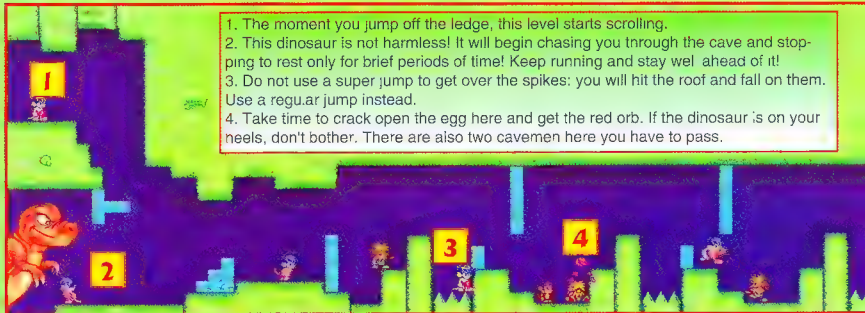

While the little apes were doing whatever it is apes did in prehistoric times, two strange red orbs dropped from the sky. Two apes, not knowing what they were, touched them. In a flash, the two evolved thousands of years ahead of the other chimps. They were Congo and a girl. Suddenly, a little demon swooped down, stole the girl and changed Congo back into his original form. This made Congo very angry, but what could a chimp do? His prayers were answered as another red orb fell, and soon Congo began his quest to get back his lovely mate!

Data East does it again with another caveman-type action game, Congo's Caper! Unlike the previous Joe & Mac, Congo sans the two-player simultaneous mode (but two people can still play, just at different times). The enemies are also an improvement: not only do dinosaurs appear as adversaries, but four deadly scoundrels each with special destructive powers stand in Congo's way as well. Congo must traverse each world these meanies are rulers of in order to find his mate, and he can select any area he wishes! But don't think Congo is immortal: his advanced state is limited to one hit. If he does take a hit, it's back to his chimp form!

To change back into his advanced form, crack open the red eggs along the way and find the red orbs! If Congo collects three of these red orbs without taking a hit, he is Super Congo: he can hit harder, jump higher, and every red orb he collects thereafter in his super state gives him an extra hit point, up to three maximum every orb gathered after that gives Congo an extra life! Congo is armed with a club and a super jump to smash his enemies - as he has in his chimp form! But remember, Congo can only do it with your help, so help solve Congo's Caper!

1. The moment you jump off the ledge, this level starts scrolling.
2. This dinosaur is not harmless! It will begin chasing you through the cave and stopping to rest only for brief periods of time! Keep running and stay well ahead of it!
3. Do not use a super jump to get over the spikes: you will hit the roof and fall on them. Use a regular jump instead.
4. Take time to crack open the egg here and get the red orb. If the dinosaur is on your heels, don't bother. There are also two cavemen here you have to pass.

CONGO'S WORLD

These are the four worlds Congo must pass in order to win back his mate. Match the numbers above to the ones on the right for a peek of each!

1: Run as fast as you can to avoid the ball that flattens everything in its path!

2: Swim carefully, avoiding the sawfish and spikes while the water rises!

3: Jump from sinking column to sinking column while dodging enemies!

4: Ghosts are here! Touch the bulb to flash a light and make them vanish!

6. If you have the time, try and get the red orb. If you are Super Congo, use a super jump, if not, stun an enemy caveman and roll him under the orb. Then jump on his head!

7. You're out of the cave, but it's not over yet! The dinosaur that chased you must now be defeated! He is rather simple to beat, though. When the evil cave men walk toward you, hit them once to stun them, then roll them at the dinosaur! This will knock him out fast!

TO THE VICTOR GO THE SPOILS!

After a rough day of hunting food for their families, Erik the Swift, Baleog the Berserker, and Olaf the Stout settle down for a peaceful rest. Suddenly, a huge U.F.O. appears in their village and abducts the trio. Little did they know that they are about to become a permanent collection to the evil Crutonian ruler, Tomator.

Tomator plans to trap all unique life-forms and add them to his gallery. But he didn't plan on three of his life-forms revolting!

In *The Lost Vikings*, you take control of three daring Vikings as they plan their escape from the U.F.O.

The liveliness of the Vikings comes alive through text balloons filled with humorous personalities. They crack jokes at each other while their slapstick humor will keep you playing for hours.

Erik, Baleog, and Olaf need your help to escape the Crutonian ruler and safely return home to their lovely Viking women.

Flame Arrows toast the strongest foes with one shot.

Anti-Gravity Boots let you stick into low gravity floors.

Stout

Olaf the Stout is the defending character. His shield can block any assault and he can use it to hang glide to safety. He is the slowest character but has very high stamina.

Baleog the Berserker

Baleog the Berserker is the offensive character. He can shoot arrows and swipe with his sword, but he cannot jump or defend himself. His muscles make up for it, though.

Erik the Swift

Erik the Swift is the quickest of the Vikings. Although he can jump very high, he has no offense or defense to use against enemies. His headbutt technique can crumble walls.

Strategy Session

Here are some hints to help you get through the last part of Stage 1!

- 1) Keep away from this meat grinder!
- 2) Press this button to turn off the laser.
- 3) Dodge the blasts from the cannon and grab the Yellow key.
- 4) Insert the Yellow Key in the keyhole.
- 5) Step inside the transporter and press the 'A' button to activate it.
- 6) You will end up in a new location.

- 7) Erik must use Olaf's shield to give him a boost to grab the Gravity Boots.
- 8) Have Erik equip the boots and run to switch off the gravity control module.
- 9) Now Olaf and Baleog can battle the sentry guards and make it to the exit!
- a) If hit points need to be rejuvenated, pick up the apricot to give them a boost.

The U.F.O. Experience

Hurtle through space in the U.F.O. stage where players begin their quest. While not difficult, there are plenty of challenges that await our Norfolk friends. You will meet space aliens that offer advice and enemy robot guards protecting their ship. Throughout the four stages that comprise the U.F.O. level, you will find an abundance of fruit to charge up your hit points. A lot of backtracking is needed to disarm laser traps and avoid impending doom, while guiding Erik, Baleog, and Olaf to safety. Here is a guide to completing the last section of Stage 1.

Egyptian Pyramids

Enter the mythical Egyptian pyramids where ancient Pharaohs have booby-trapped their burial sites to warn off intruders! Face new foes and learn some new techniques.

- 1) Baleog's arrows can trip this switch to make the floor (a) drop.
- 2) Once again, shoot this switch to drop the floor (b).
- 3) When Baleog shoots this switch have Erik run to the other side before the wall drops down again.
- 4) Make Erik pull this lever to raise the door, place a floor (c), and let your comrades safely pass through.
- 5) These guards attack with ferocity.
- 6) If Erik headbutts this wall, it will reveal a secret passage to collect flaming arrows and another hit point marker (7).

But wait! There's more!

Each new stage puts the Vikings in some mind-bending scenarios. They will head back in time and face hungry dinosaurs and spitting snails! Lava pits and flowing waterfalls present unique dangers as well!

Enter damp caves where the only light comes from the lava flowing toward you. Not even Olaf's shield can stop this catastrophe! Search for hidden rooms that reveal shortcuts and intense power-ups. Look for these and many more levels as you help The Lost Vikings return home.

Space aliens will offer clues on how to disarm traps and get away safely.

Teamwork is the only way to get through some tough situations in Vikings!

JOIN THE HUNT!

The Addams Family is back for the ultimate scavenger hunt! As little

Pugsley, you must find six items hidden within the mansion! But it is easier said than done, as your fellow family

members have taken steps to make things difficult for you. They have stocked their rooms with many dangers and have hidden the exits and passages! You start with four lives and a heart meter with three hearts: each hit you take removes a heart. When all three hearts are gone, you go six feet under! You are simply armed with your running and jumping skills, and your intelligence to solve the puzzles in the rooms! So join the Addams family... if you dare!

Welcome to the Addams Family scavenger hunt! Through these six doors (and one mystery room) you will find the following items: Octopus Ink, Moldy Cheese, Spider Venom, Dragon's Fire, Normal Underwear, and the Magician's Gloves! Match the numbers on the map here to the ones on the other page.

BASEMENT

BASEMENT:

Boy, it's dark down here! You can see very little in front of you so you don't know what's coming! Go slowly here, watching for spikes, blobs that drop from above, and lethal bubbles!

Proceed cautiously - you are limited as to what you can see ahead of you.

To beat this pesky pendulum, jump on the platform then wait to jump over it..

MORTICIA

MORTICIA:

Some say Morticia is cold, but this is ridiculous! Watch your step on the floors - they are slippery, as are your adversaries. Several blocks must be hit in this area for staircases to appear!

Hit the blocks (circled) and a staircase will appear to speed you on your way!

If you hit the secret blocks, you can enter the dollar room for big bonuses!

WEDNESDAY

WEDNESDAY:

Upstairs you'll find your loving sister's room. The entire stage is presented in a crystal ball with her leering at you! Several armored knights await you here, as do fireballs and spikes!

Don't jump too high or you won't get passed the hanging spikes!

Ride the guillotine to get the question mark - you can't pass the wall without it.

UNCLE FETER

UNCLE FETER:

There are many experiments loose in Fester's lab, and you must pass them all to get your item. Watch for hidden paths, flames that push you up, eyeballs, dropping acid and flies!

Grab the first question mark, not the second, to get the dollars underneath!

Hit these green blocks from below to make a path out to the upper left.

GOMEZ

GOMEZ:

The potty's over when you enter this giant bathroom! There are many chains to climb and nasties to watch for! Yellow blocks are the key here: hit them from below to dissolve walls!

You can't kill these killer crabs; just avoid them by climbing the chains!

You must get all the question marks before you can get past the yellow wall.

COUSIN IT

COUSIN IT:

Climb the rope and it's off to the attic, which is infested with mice, missiles, cannons, bats and various explosives! Some of these can be used to your advantage - like wrecking walls!

Ride the cannonball to force it down in order to smash the yellow wall or blocks.

You can enter some of the rooms by simply running through the walls!

THE HUNT FOR RED OCTOBER

Here is the map room where you receive all your missions.

This is the terrorist base that you are ordered to destroy.

Red alert! The dreaded wolf pack is swarming in for the kill!

Defend the huge oil rigs against armed intruders.

The battleship will shoot depth charges and sub torpedoes!

A rogue paramilitary group has hijacked a destroyer!

This giant squid is not fooling around. Take him out quick!

THIS IS NO PLEASURE CRUISE!

Welcome to the Red October, the most high-tech nuclear submarine in the Russian fleet. As Captain Ramius you will defect to the United States and begin conducting missions for the Americans. You will have to be clever because the Red

October will be desperately out-gunned and outnumbered!

The game has good control, and switching between the Super Scope and the joystick is an interesting way to mix things up. Your adventure is filled with stirring graphics and music. This is an exciting addition to the Super Scope collection. So batten down your hatches for some real action under the sea!

Unfortunately, things do not always go as planned! Bail out of the sinking sub!

"Nice Shot."

Um, sink one more.

You're not a drink.

So stroke a mean cue.

Jimmy Connors PRO TENNIS TOUR

RIGHT UP YOUR RACKET

It had to happen sometime... a great player like Jimmy Connors just had to have his own tennis game. As it turns out, he's now playing on the Super NES. PRO TENNIS TOUR serves up one of the best concepts ever seen in a tennis game. You can choose to play as Jimmy Connors or any of the other pro players on the circuit (everyone has a different

strength and weakness to their playing style (i.e., a wild backhand.) Tour the International tennis circuit by choosing the tournaments you wish to attend. Many games are held at the same time so you must choose wisely. The object is to get points by winning matches. Your world rank is based on the number of points you rack up. Different trophy screens appear when you win tournaments. If you feel the need to practice, the coaching feature proves quite useful. Tennis anyone?

LEARN THE SECRET ART OF NINJUTSU!

Normal

Simply hit the A button.

Back Attack

When behind enemy, hit A.

Flying Kick

First B, then A half way up.

Bulldozer

Press C, then hit the A.

Snake Killer

First C, then B, then A.

Jump Kick

Press B, then A right after.

Whipit

Get close and press A.

Foot Flinger

Press C, then hit A+B.

Here are some quick tips to use for deadly moves. If you roll your fingers over C, then B, then A quickly enough, you will do an instant Snake Killer. That and the normal attacks are your best defense!

A = attack B = jump C = run

Cannonball

Hit B, then A at top of jump.

Hard Knocks

Simply hit the attack button.

SCENE 1

THE CITY STREETS OF MANHATTAN

First is the street cleanup. You have to take out the Foot clan in both the sewers and the streets above. Pizza monsters and soldiers lurk everywhere. Next, go face to face with Leatherhead!

1. As you start out, there is a fire hydrant that you can clip to take out several foot soldiers.
2. A soldier will pop out with a sewer lid. Use a snake killer.
3. A car will pull out and try to run you over. Slide to get past it!
4. Grab the box of hard knocks.
5. Take out the soldier with the sewer lid using the snake killer.

That cajun gator Leatherhead will toss knives your way and charge toward you.

SCENE 2

A MYSTERIOUS GHOST SHIP

Surf's up on your modified surfboard as you break the waves to get to the ship. Once on board, you find that the old ship is filled to the brim with Foot clan and deadly traps ranging from rolling barrels to spring floor boards. The ship will dock inside a cave where you will confront the evil Rocksteady!

1. As you move forward, have the Foot gather near the explosives and give it a good wack!

2. Watch out for the picture of Shredder that could fall on you!

3. There are several boards that can retract and smash your face!

4. Watch for the falling barrels!

5. If in Normal mode, get the Box of Hard Knocks to get the Traags!

Stay as close to him as possible when he is not running so you can clobber him!

SCENE 3

THE SHREDDER'S HIDEOUT

Enter a dojo of immense proportions, filled with many traps and several bamboo spires that will skewer even the toughest shell around! The Foot are plentiful, as well as the creations of Baxter Stockman - the Mousers! At the end of the round, get ready to take on the proud warrior Tatsu!

1. Keep a sharp eye out for the Roadkill Rodneys that bust out of the ground. There's lots of them!

2. Be wary of some stones. The Foot may be hidden under them.

3. The main thing to watch for is the multitude of mousers that will suddenly appear around you!

**CONTINUED ON
NEXT PAGE...**

1. Wack the candles into the air and send them flying into the Foot!
2. The Bamboo rods protruding from the ground will skewer you!

3. Like before, smack the candles into your opponent to help out!
4. Don't get charged up by these sinister samurai statues!

Use the snake killer to hit him quickly. Also remember to dodge his knives.

SCENE 4 THE GAUNTLET

Compared to the other levels, this one is a breeze! There are, however, some sections where you have to fight the Pizza Monsters. Then you must go up against the three previous bosses: Leatherhead, Rocksteady, and Tatsu. Finally, get ready to take on Baxter Stockman in his pre-mutant, first arcade form!

The easiest way to beat this pest is to neutralize him with constant jump kicks!

SCENE 5 TECHNODROME: THE FINAL SHELL SHOCK

When Krang begins to laugh, it's your chance to strike him to the ground!

It's time to take on Shredder and Krang on their own turf! First, you will need to dash through the Technodrome. There are plenty of dangers lurking everywhere. For instance, the Traag soldiers are found in almost every corner. Not only that, but Mousers will bust out of windows, Foot soldiers appear out of transporters, and so on. At the end, you will battle with Super Krang, after which the Super Shredder appears with awesome mutagen power flowing through his freaked form! Don't be alarmed, justice will prevail! Don't forget, you have Turtle Power!

Try to avoid him until he fires his blue freeze ray, then attack him in full force!

A person is lying down, playing a video game on a large screen. The screen is divided into four quadrants, each showing a different game scene. The person is holding a black controller and has their legs raised in the air. The text "METO HENEX TLEVEL" is visible at the top of the screen.

kidney punches,

How is Streets of Rage 2 different from the first one?

The graphics are awesome. At 16 megs it's our biggest game. Overall there's a lot more of everything, more moves, more intricate maneuvers, more characters. And the characters are a lot bigger in size. So the action is more impactful.

uppercuts, knee-slams,

What are some of the new moves?

Axel™ has new punch combinations that do some serious damage. Blaze™ can do backflips to attack enemies in front and behind her. And there are two new players: Max™ and Skate™. Max™ is an ex-wrestler with a ruthless body-slam, and Skate™ knocks his opponents out with flying jump kicks. He can also skate behind his opponents, jump on their shoulders and ambush them.

eye-gouges

Are there new enemies?

Lots of new enemies—a gang of motorcycle thugs, a guy with a jet-powered pack on his back, knife-fighters, ax-murderers, ex-cons, and a bunch of new martial arts experts, so there are a lot of new challenges. And the player controls are different also.

and groin kicks.

How is the control different?

We've tuned the controls to be much more responsive, so that the action will be a lot faster and more spontaneous. You can crack a jaw or flatten an opponent in a split second. The players are basically as fast as your reflexes will let them be. The fighting is so realistic, you actually feel tired after playing it. It's the next best thing to kicking some real you-know-what.

ROUND 1

The first stage consists of our hero leaping from building to building in search of the boss who has captured some innocent children. Deal with robotic adversaries, stationary barriers, and foes dropping rocks out of windows! (Refer to the map at the bottom of the page.)

ROUND 2

Help people escape from a building in this next fight for survival. Using your new Super Spin ability, you can dig through the floors of the levels. Walking robot adversaries are on the lookout! Break down walls with your punches, avoid dangerous acid puddles, and go for it!

ROUND 3

Take to the skies as Superman tries to rescue Lois Lane from the evil Brainiac! Using your heat vision, take out as many enemies as you can. This fight requires both aim and skill. Combat airborne robots, electrified barriers, and minions pretending to be sharks in the water!

THE FIRST SECTION'S ENEMY OVERVIEW

1. These enemies travel in groups, but only take one hit to destroy

2. This mechanical menace circles around you. It takes four hits to kill

3. These nasties fly above and below you. Kill them with one hit.

4. Stationary barriers will not let you pass. Duck and shoot it three times

5. The drones run at you from buildings. One hit will knock them off.

6. One hit is all it takes to destroy this robot, but dodge his shots first!

Ride your trusty steed in the bonus stage and get extra 1-ups and other items!

LEVEL ONE HINTS

1. You can obtain power-up items from the "friendly" ladies in the bars across town.
2. Beware of some bad hombres hiding inside the barrels
3. Flatten these guys by shooting down the barrels above them.
4. Watch out for the herd of cattle rushing by. Jump or stay on the balcony
5. Keep jumping over the charging bulls.
6. Save this woman before the outlaws do away with her.

Look out below! Watch for enemy attacks from above.

The train level is filled with tricky mail post jumps.

Ride the trolley to the Boss while fighting off the Indians!

The vicious outlaws surround this fortress on every side!

MOST WANTED BOSS HOMBRES

Destroy the barrels Simon hides behind and fire away from below

Stay behind the logs. Fire diagonally and avoid the shots from the side

Obtain rapid fire and pelt the Indian as he attacks with deadly knives.

Don't stay in one place too long and fire when you have an opening.

GENESIS

SONAR

Use the sonar to talk to other sea life or read your signals to find out your location!

ENTER ECCO

Enter a poor old porpoise who has lost his pod. He does have, however, a sturdy bottle nose which he uses to ram other sea-dwelling predators. Ecco also has a sonar that lets him "talk" to other animals and a map of reference to guide him through the dark sea.

RUSH DIVE

Use this to ram other predator animals as well as attack schools of fish for dolphin food!

DOLPHINS AREN'T FISH!

Push the shell to get rid of the boulders!

You, being the smartest of all animals! You must swim in the dark depths of the sea in order to find them. No super-paleos will destroy in this game, you have to use your brain and work around the obstacles to find the pod.

Push a rock off the edge to block the current!

TAKE ARMS AGAINST A SEA OF TROUBLES!

The dolphins are one of the most domestic and friendliest animals ever to swim our fair seas. Unfortunately, it is a known fact that our seas are rapidly becoming unsuitable for life.

Our finned friend Ecco has lost his Pod (a school of dolphins) due to

mysterious circumstances. Help Ecco battle the sea monsters and find his way back to his clan.

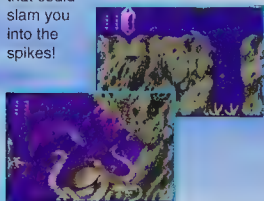

Ecco is the game known as Dolphin and has to be one of the most intense (and yet one of the most different) side scrollers you have ever seen! Instead of being a mindless attack-all shooter, this game puts a heavy emphasis on the lifestyles of an actual dolphin.

Also, the detail and fluidity of the backgrounds will stagger your imagination! Embark on a sea-faring mission of danger!

UNDERCAVES

Here, you can learn the basics of how to control your dolphin. Watch out for the huge octopus that lurks on the ledge! To get past him, slowly swim by his largest tentacle. You should also watch for the upcurrents that could slam you into the spikes!

Watch for the undercurrent and a giant octopus that could hamper your day!

THE VENTS

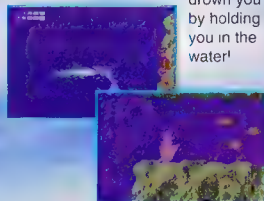

The upcurrent is quite horrendous when trying to rescue a dolphin in distress!

THE LAGOON

A lost dolphin asks you to help him find his lost pod. Lots of sea predators will try to stop you, so keep your snout in a handy useful position in case of attack! There are sharks present and a tentacle will try to

drown you by holding you in the water!

Sharks and tentacles will try to end our fishy (not!) character's quest for good!

Check out this map of the first level. It may not show much, but look at the size and detail of this masterpiece of a game! There is so much detail that your eyes will bug out! Just imagine guiding your dolphin through this waterway - very relaxing indeed!

Search for the knowledge of the Big Blue, otherwise known as a blue whale. He sure is big, but don't let his big size intimidate you, for he is here to help you in your search!

To find the Big Blue, head to the north pole!

Careful of the octopi! If you don't take it slow around them, there will be one less dolphin in this sea world!

Sharks don't appear until you are past the fourth stage. They take many hits to destroy and are dangerous!

If these sea creatures latch on to our finned hero. Ecco, they can squeeze him until he runs out of oxygen!

Killer whales aren't much of a threat, and they can inform you of what to do when you're in need for help!

WELCOME TO TROMAVILLE!

A wasteland of toxic terror!

The hideous mutiforms with superhuman size and strength have just made their way into the hands of 16-Bit Sega Genesis owners! Now you (yes, you) can guide the cleanup crew through the stinky streets of Tromaville and put an end

to Dr. Killermoff's plan to pollute the town and bring his race of cockroach creatures to live on our once beautiful planet.

Set in a side-scrolling intense action game, you play the role of either Toxi (with his mop and blobbie, of course), Nozone with his super shnoz, or Junkyard - that mutant dog that Killermoff loves to hate! Get ready, it's cleanup time!

Many Views

When at the channel, you can ride a jet ski to victory!

Hop on a skateboard equipped with a machine gun!

In the stand and action mode, fight with many moves!

THE STREETS OF TROMAVILLE

The streets of Tromaville need a tad bit of sweeping to get rid of all the creepizoids that lurk about. Watch out for the speeding cars and a truck that lets loose special chemicals that can kill a man!

Even though you have plenty of ammo, the fighting can get furious!

TROUBLE IN TROMAVILLE PARK!

Oh boy! Time to have some park pick-ups and get rid of the Deliberates. This level is filled with many narrow escapes and pits that you can fall into and lose a life! Watch for the helicopters that dive at you!

Watch out for this two-headed weed monster, his breath is scorching hot!

MOP UP THE ALIEN SPACE SHIP!

Killemoff's spacecraft holds more than what you'd expect! There are gigantic metal stompers along with insects tossing sludge from the catwalk. Stay on the lookout - this place is infested with creepies!

Keep your eyes peeled for anything out of the ordinary and you'll be safe!

TAKE A TRIP THROUGH THE AIRPORT!

The airport will provide you with plenty of action. From battling enemies indoors to having it out on top of a bridge to taking offense when someone is ready to knock you off of a speeding train!

Climb aboard this train and head to the engine to have it stopped for good!

The channel is filled with toxic waste and the ever popular troopers.

Get slimed by Smudgeula while trying to help out the environment.

Time to find Killemoff in his vast complex fortress! Can you spot him?

bad guys are using souped-up sports cars, vans, mounted with machine guns, even semi-trucks. How can the police defeat these criminals?

They're beating them at their own game by employing souped-up engines for a similar edge! That is what the men and women of the special CHASE police unit have done! In this sequel to the arcade classic Chase H.Q., you can choose between three vehicles that include a red sports car, a 4x4 Land Rover, and a super-charged semi! Each vehicle is armed with three nitro boosts that can be used at any time. These rapidly increase your speed for a limited period of time. At the start of each chase, your faithful fellow officer Nancy will relay vital information to you about the get-away car as well as the condition of the roads. You are also given a limited amount of time to reach the suspect and when you do get the criminal in your sights, additional time is awarded. An arrow highlights the suspect you must bring to a halt. Chuck those old golf clubs into the closet - PGA TOUR GOLF II is coming to the Genesis! Thanks to the experts at Electronic Arts, PGA Tour Golf II does a fine job of simulating all the fun and challenge of a real golf game!

This sequel to the hit PGA Tour Golf has several new improvements. First of all, there are a whole slew of new courses to challenge your swing. In addition, this cart has better character animation, and an improved auto-caddy which now chooses your clubs more carefully. The instant replay feature allows you to relive those 'moments of glory' over and over! You are also allowed to see a dithered relief map of the greens which shows how the green breaks. A new, adjustable Draw-Fade bar aids your accuracy. Couple all of these new features to a list of options as long as the back nine and you've got one of the best golf games ever!

For a real challenge, try your luck in the Tournament Mode against the likes of golf greats Fuzzy Zoeller and Fred Couples. Excellent graphics, cool sound effects (especially from the fans!), battery backup and a challenge level are all included in this new cart for the Genesis. Believe it or not,

*An interview with
Scott Bayless, CD developer at Sega.*

the brains behind Sega CD™

What are the technical advantages of Sega CD?

Basically it offers massive storage, which means we can now use real video action. A 16-bit cartridge could only hold a few seconds of motion video. But the CD holds over 500 megabytes, so you can now pay for hours' interacting with real video.

don't wear pocket-

So the games will be more realistic?

Yeah, way more realistic. We have a second processor and a special graphics chip, so our zooming, scaling, and rotation is incredible. And we use a lot of real life video you can actually interact with. Characters will speak to you and harass you.

protectors or glasses

What do you mean "interact"?

For example, there's a game called "Night Trap"™ that uses all real life footage with real actors, and you control the action. You have to rescue girls from a house full of ghouls by operating a surveillance system, and trapping them in different rooms. It's like controlling the plot and the action of a real movie, from start to finish. It's pretty wild.

held together with tape.

Do you have a personal favorite CD game?

Yeah, I like the INXS music video game, where you can re-edit the r videos with different special effects and graphics. The sound on all the CD's is pretty amazing, it's just as good as an audio component. Plus we're using a lot of original music. When you hook it up to your sound system, it's like playing in a whole new realm, it's really amazing. You forget where you are.

FREE GAME INFORMATION!!

**Plus Your Official Entry Form For EGM's
FACT-FILE Game Give-Away!!**

Circle the appropriate Reader Service Numbers to receive FREE information on the games and products in this issue! Then complete the Survey Questions and you'll be automatically entered into this month's drawing of EGM's FACT-FILE Game Give-Away!

WIN BIG WITH EGM!

EGM is back once again with a one-way ticket to some of the best games money can't buy! You don't have to be a brain surgeon to enter (in fact you don't even need to have much of a brain), just check off the boxes on our reader response card for more info on the games that make you tingle with delight! Finish by answering the questions about who you are, stick a stamp on the card and you're in! You may not win, but you'll be able to sleep well at night knowing that you've made your contribution to the U.S. Postal Service! What a spartan!

The following companies are contributing to this contest:

Accolade, Accolade, American Softworks, Atari, Camerica, Capcom, D.T.M.C., Data East, Electronic Arts, Flying Edge, Hudson, Hi Tech Expressions, Interplay, Kemco, Konami, Mindscape, Nintendo, Ocean, RazorSoft, Sega, Shadowsoft, Sunsoft, T.H.Q., Taito, Tecmagik, Tengen, Tradewest, Turbo Technologies, Ubi Soft, Virgin

ENTERING IS EASY:

- 1) Fill out the Reader Survey Card.
- 2) Answer the Survey Questions and Pick the Systems that You Own.
- 3) Mail you Reader Service Card to:

Electronic Gaming Monthly
P.O. Box 8965
Boulder, CO 80328-8965

Winners will be listed in the March EGM!

Contest Rules: All entries must be received before February 1, 1993. EGM or the judges are not liable for lost or misdirected mail. One entry per person, multiple entries will be disqualified. Prizes are not transferable. Illegible or incomplete entries are ineligible. Void where prohibited. Is it wrong to admire another person's crisp sleeve? The decision of the judges is final. No purchase necessary to enter. Contest is not open to employees of Sental Publishing Group, Inc. or to members of their immediate family. Taxes are the responsibility of the winner. Approximate value of prizes is \$800. Prizes will be forwarded to the winner when final production copies are available. One prize per household. Determination of winners will be made through a random drawing. Also void in the event of thermonuclear war.

Sherlock Holmes

VOLUME II

CONSULTING DETECTIVE

CLUES?

The game is afoot with the latest installment of the popular Sherlock Holmes mysteries for the Sega-CD, *Sherlock Holmes, Volume II*! This time he's back with three new mysteries to be solved: The Two Lions, The Pilfered

Paintings, and The Murdered Munitions Magnate. Collect clues in each case by talking to people, using information from past cases in your files, or reading the daily newspaper. When you think you have solved the case, take your suspects to court and see if you have the evidence to bring them to justice. By using live, full-color interactive video, pay close

attention to everything: the clues are everywhere! One difference this version has over the previous *Sherlock Holmes* CD-ROM installment is a live actor taking place of the graphic representation used before! If this isn't enough for devoted *Sherlock Holmes* CD-ROM gamers, *Sherlock III* is currently in the works! Put on your thinking cap and see if you can solve these three new cases!

BUBBLE FRENZY!

Two brothers armed with super secret bubble popping harpoon guns are in search of mad spheres bouncing around the world. Bop your way through tons of bubbling levels where you can pick up rapid-fire guns, double harpoon weapons, shields, and food for bonus points!

This new game from T.T.I. is a lot like a Space Invaders with a bubble-bursting twist. It's full of comical graphics and exciting game play that will keep you playing until you burst!

You'll play in levels with beautiful scenes as you progress in the game.

Use the top rung of the ladder as a shield and the bubbles will bounce off.

THE BROTHERS' BUBBLE BURSTERS

ACID. BOMBS. DYNAMITE. OUR SCIENTISTS MADE IT HARD TO GET A WORD IN EDGEWISE.

This mind-boggling, falling-block Soviet game will burn you up, blow you away, blast your socks off. This time the falling pieces are letter blocks. Instead of forming lines, you form words. Horizontally. Vertically. They clear. You score. The pace quickens. Where's that Magic Word? A Wild Card Block appears. The challenge

builds as the levels go higher and the blocks fall faster and faster. You find our 50,000 word dictionary knows all. You're in the mood for 2-player mode so you take on a friend. So much to do, so little time. More challenging than Tetris? You have our word on it.

SAVE THE BEACH!

The Big Cheese is threatening to build a nuclear plant on the beach! The only way to save the day is for Byron and his fellow beachin' dudes to get the band together and raise enough money to buy it back! However, the Big Cheese knows about your plan and he's prepared to stop you with every dirty trick in the book! You must travel from city to city, collecting metal cans which you can recycle so you can refuel your car and save the beach. Rock on!

You and the buds discuss a plan of attack against the Big Cheese.

Travel to different cities all over California in order to earn money.

Punch the rungs off the ladder and whack this big cheesehead!

Clobber your way through the junkyard. Make sure you dodge the flying traps!

1. Gull's Gym is full of musclehead sea gulls pumping iron. Knock this guy back as soon as he appears.
2. Don't forget to pick up the can to refuel your car.
3. After you clear the sign, get ready to duck because a sea gull will throw a dumbbell toward you.

This huge machine will convert the trash you've collected into gas for your vehicle.

Our feathered friend does a tricky slide attack while bowling over the rat pack.

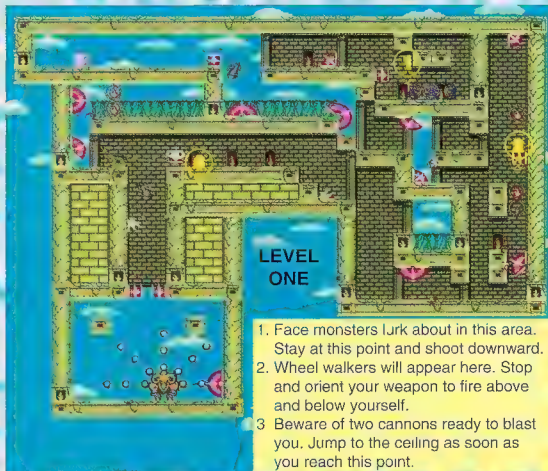

Catapult this rat high into the sky at the amusement park and ring his bell!

New Releases From TurboGrafx.

TIME CRUISE™

Take off on a trip through the ages with this intense video pinball game. Find bonus levels that send you into different eras in time, from the prehistoric ages to meet evil times and even into outer space.

SPACE MANIA™

Experience high-voltage action as you cruise through the city and under the ocean to take on squids and transformer-like creatures. You'll be electrified by the great soundtrack on this high-energy shooter.

WORMS™

Whoever created this game was a few rows short of a snake. You control a gun toting, worm-like object that floos along walls, floors and ceilings. Travel through twelve levels of ancient architecture and cinematic soundscapes as you try to conquer the evil sorcerer.

SAMURAI GHOST™

You're a dead samurai. And if that's not bad enough, you've been woken up from your eternal slumber by some odd witch to do battle with your clan's enemies. In this hauntingly spooky setting, slash your way past trailing dragons, disembodied hands and flailing skulls.

Air Zonk™

Get some serious hang time with the hottest new hero of the video screen. Zonk soars through five different, ever-intense acts on. And enlist one of Zonk's demented cyborg friends to help you in your quest to defeat the evil King Droop.

INTELLIVISION™

First, hit the center. Then hit your opponent into the boards. Then hit the puck into the net. You can take your team through the championship tournament, or face off in a penalty shootout contest. All in all, this game will be a hit!

CHASE™

The streets of New York City need to be cleaned up, and you're the one to do it. In the cockpit of a Taito 4000, drive the new high-speed supercar Chase 90854 patrol car. Race through the streets of New York City until you locate the fugitive, and then smash him car so you can make your arrest.

OPENING CINEMA: KIDNAPPED!

WHERE IS SHE?

Master Higgins is searching again! His love, Jeannie Jungle, has been kidnapped - this time by a flying saucer! You aren't about to let her be whisked away - at least not without a fight! So begins the latest adventure with Higgins for the GameBoy system - Adventure Island II! Move from treacherous islands to even more deadly ones in this sequel to the original GameBoy hit! Battle penguins, crabs, birds - just about every creature one would find on an island! But don't fret - you can make some friends along the way! A sea lizard, a bird, two walking lizards, and a triceratops are more than willing to let you ride on their backs and use their special powers! But you can't just run though each level - it is essential that you collect power-ups to advance. Since the life bar slowly diminishes after each level, you must collect food to re-energize it or it's good riddance to you! There are also several weapons you can collect such as throwing axes, boomerangs, and a skateboard to help you speed through the levels! Get ready for the adventure of your life in Adventure Island II!

DRACULA THE UNDEAD

I am Bram Stoker and by

Bram Stoker will be
telling the story.

CLUE: UPSTAIRS WILL PUT YOU CLOSE TO THE EDGE!

- (1) Dracula says "Hearst" and the vampire prints "Just".
- (2) Find a way to pry open the door in the upstairs hallway.
- (3) From your room you can see Dracula step out for some fresh night air.

- (4) Make sure you're not in the proper state for going with Count Dracula.
- (5) Search the front stairs and hallway for notes.
- (6) In the library you will need to shed some skin on the subject.

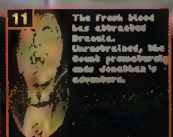

CLUE: WHEN YOU ARE HUNGRY FOR MORE INFO THEN NOW IS THE TIME!

CLUE: IF YOU GET THE NOTES THEN ALL IS WELL IN THE STAIRS!

- (7) You better not hover around with this too long, just be sweet!
- (8) Search the tables for the keys to salvation and escape.
- (9) Go ahead and give Count Dracula the same - well done!

- (10) Johnathan has found Count Dracula's coffin in the basement catacombs.
- (11) It is best not to release the count with fresh blood, because he has such little will power.

CLUE: GUARD YOUR BLOOD!

THE DRAC IS BACK!

If you have been waiting for a good mystery game then you're in luck. Atari has delivered just such a game with Dracula the Undead! You play the part of Johnathan Harker, a young solicitor who has come to Transylvania to settle a business affair.

Harker must uncover the secrets of Dracula's castle and escape back to London in time to save the world from the evil of the legendary vampire, Count Dracula!

By pressing Option 1, you can change your skill level from 0 to 9.

You will receive points for winning a joust. Pick up the egg that is left behind.

If you don't pick up the egg in time, it will turn into a more powerful enemy.

In the higher levels, a hand grabs you from the fire of the burning bridge.

Collect the eggs quickly in the Egg Wave, or they will soon turn into foes!

To beat the 'unbeatable' Pterodactyl, get exactly even with them and then collide.

PREPARE THYSELF FOR CHALLENGE

It's back! The classic game that rocked the arcades has come to the portable scene, and it is better than ever! In Joust, your goal is to complete each level by knocking a set amount of enemies off their war-buzzards. The higher joust wins in a collision. Collect the eggs that are left behind before they hatch and turn into more powerful enemies. When you start, you and your ostrich will

be flashing, which means you will have temporary safety. As the levels increase, so do the number of enemies and their power. Bridges burn, Pterodactyls attack, platforms disappear, and Lava Trolls try to grab your bird from the murky depths. Egg Waves will give you extra bonus points. Now you can bring the fun of this arcade classic with you wherever you may go.

Warner Bros. Hopes Babylon 5 Can Shoot Down Star Trek

A rival more formidable than even the Borg is emerging to challenge Star Trek as the undisputed king of genre television.

Babylon 5, backed by Warner Bros. TV, is slated for a February 1993 debut.

Although the series has initially received positive response from industry insiders, it faces the daunting task of going against Star Trek:

The Next Generation and new Trek spinoff Deep Space Nine.

Babylon 5, however, is radically different, if not the antithesis, of the sterile Star Trek world created by the late Gene Roddenberry.

In fact, science fiction writer J. Michael Straczynski (whose television credits include story editor/writer of the syndicated

Twilight Zone and writer/producer of Murder She Wrote), who created Babylon 5, said the new series will have a darker, more rough-edged look like Hill Street Blues rather than the pristine set of the U.S.S. Enterprise.

The fifth in a series of

space stations, Babylon 5 is a gargantuan United Nations-like space port built in 2257. More than five miles in length, the ship is so huge that it houses its own ecosystem - complete with farms, streams, trees, animals, and even weather. It simulates various alien environments, is home to a mall, a gymnasium, and even a casino.

Babylon 5 serves as both an outpost for travellers and merchants, and as a command platform for members of the five cosmic alliances who helped build the space station.

None of the five intergalactic governments trusts each other, and the peace treaty between the five factions is volatile at best.

Set in such a precarious state of affairs, the storyline possibilities for Babylon 5 seem infinite.

Unlike Star Trek or Star Wars, where the lines between good and evil are clearly drawn, Babylon 5

reflects a more humanistic world fraught with gray areas.

The characters of Babylon 5, even the so-called good guys, struggle with their own personal flaws. The Chief Security Officer, for example, has a drinking problem. Even the station's commander is convinced someone did something to him during the last war - although he can't figure out who or what.

Cast members for the series include Michael O'Hare (Rage of Angels) as Commander Sinclair; Tamlyn Tomita (Karate Kid 2) as Laurel Takashima; Jerry Doyle (Moonlighting) as Security Chief Garibaldi; Peter Jurasik (Tron, Hill Street Blues) as Ambassador London; and Andreas Katsulas (who played the menacing Romulan Tomalak on The Next Generation) as alien ambassador G'kar.

Monster Movie Madness

Hollywood appears to be planning scare tactics to attract audiences to theaters in 1993.

Although it sounds like an oxymoron, monsters of all sizes and shapes will be attracting audiences by scaring them.

This month, we'll take a look at some of these movie star monsters. Whether it's the return of the dinosaurs in Jurassic Park or the return of Freddie, 1993 will be a scary year indeed.

Bolthead Bedlam

Inspired by the success of the misunderstood monster movie popularized by Bram Stoker's Dracula,

Director Francis Ford Coppola, shown here discussing a scene with Anthony Hopkins in Bram Stoker's Dracula, isn't done with monster movies yet. He is scheduled to produce a Frankenstein film in 1993.

Although its release is still a long way off, EGM has confirmed there will be a live-action Double Dragon motion picture towards the end of 1993 or early 1994.

Frankenstein will be stomping his way across viewers' screens near the end of 1993.

TriStar Pictures signed a contract with Kenneth Branagh (Dead Again) to direct and star in the film. Branagh will play the role of mad scientist Victor Frankenstein.

Francis Ford Coppola, who directed Bram Stoker's Dracula, and his company American Zoetrope will produce Frankenstein.

TriStar officials said the film will be a faithful adaptation of the Mary Shelley novel - which means Frankenstein be a complex monster, instead of the over-

grown Gummy popularized by Herman Munster.

Frankenstein will begin shooting in England during the spring of 1993.

Godzilla in the U.S.A.

As long as we're on the subject of green monsters, TriStar has secured the motion picture rights to the bashing lizard.

Godzilla is no stranger to the limelight. During his 38 year career, he has starred in 19 Japanese-made films..

Although production on an American Godzilla film will begin in 1993, don't look for Godzilla to renew his city smashing ways until 1994.

Witchcraft Brewing

Production has begun on Disney's Hocus Pocus.

The special effects laden comedy is about three 17th century witches who suddenly find themselves in the last place a witch would want to be; present-day Salem, Massachusetts on Halloween night.

Salem was the site of the infamous Salem Witch Trials, held in early America. Several young women were tried and executed after a paranoid jury found them guilty of witchcraft.

Bette Midler, Sarah Jessica Parker, and Beth Najimy will star in the picture.

WHAT'S HOT

COMPUTER ANIMATION

The state of the art is now so real, it's scary. Wait 'til you see Mel Gibson or Kevin Costner acting alongside a computer generated John Wayne.

"X" HATS

Too many people wear these hats without really knowing what they stand for. Now that Spike Lee's movie is out, we'll all have a better idea.

HOME ALONE 2

Haven't we seen this movie before? Fox takes the safe route to riches by rehashing the first flick. So it'll only make \$150 million.

FREDDIE KRUEGER

Give it a rest already. We paid money to see this dog put to sleep, and now he's coming back? Talk about false advertising.

MADONNA

We know taking your clothes off requires less talent than singing, but this is getting ridiculous.

WHAT'S NOT

Catering to Generations of Fans

When Dan Madsen started his black and white Xerox fan club letter after the first Star Trek movie in 1980, he did it as a labor of love.

He was just another devoted Trekkie who was fascinated by the extra-terrestrial world created by Gene Roddenberry.

That first newsletter had a print run of 25 copies.

But in the last 12 years, after five more movies, an entire new Star Trek crew, and a sizzling new series scheduled to air in January, the official Star Trek Fan Club newsletter has an international following.

"I never imagined this," said Madsen, who still has the enthusiasm he brought to the job over a decade ago.

"In 1983, Paramount got a copy of the newsletter and contacted me," Madsen explained. "They said I had the right amount of fanaticism and substance in my publication, and asked me to be in charge of the official newsletter. I was flattered."

With the help of Paramount, and the rampant success of Star Trek: TNG, Madsen's publication has grown into a full color, bi-monthly newsletter with a press run of 105,000.

The magazine combines informative stories with a constantly updated catalog of Star Trek merchandise.

"We started out by offering one piece of merchandise," Madsen said in explaining the catalog portion of the magazine, "but fan interest exploded, and we expanded the section."

The latest issue has 15 pages of merchandise that will keep even the most

devout Trekkie satisfied.

Products cover both generations of Star Trek casts and includes jackets, pewter figures, board games, models, pins, jean jackets, and even crew costumes. Madsen said one of the biggest selling items is the Communicator Pin worn by Next Generation characters.

Each month, the magazine is also packed with exclusive information. In the most recent issue (November/December '92), Madsen concludes the final half of a two-part interview with Patrick Stewart, who plays Captain Jean Luc Picard on Star Trek: The Next Generation.

The article provides insight into Stewart's mesmerizing personality that fans couldn't find anywhere else. Stewart hints, for example, that although TNG may be winding down its television run after this year, that doesn't mean the end of TNG. "I want Next Generation to continue but it has to in something of a more modified form - possibly feature films."

In the same issue, Madsen previews the highly anticipated TNG spinoff Deep Space Nine. Character profiles, a photo of the cast, and a summary of the two-hour pilot (which airs January 4) are included in a story designed to whet the appetite of Trek fans. Madsen said fans are "curiously optimistic" about the new series.

The magazine even mentions that Skybox is preparing Deep Space Nine trading cards and T-shirts while Tiger Electronics is readying hand-held video games, tabletop games, and wristwatches. All Deep Space

Nine merchandise will, of course, appear in the magazine sometime in 1993.

With Deep Space Nine on the launch pad and the prospect of feature films involving the cast of TNG, Madsen's publication is perched at a unique point in Star Trek history. "It's an exhilarating feeling because of all the new possibilities. The entire Star Trek world is at a crossroads and there is definitely going to be a shakeup in the next year."

And as the world of Star Trek continues to evolve, expect Madsen's publication to be on top of every step, every flight, and every mission.

MEGA-MOVIES ON THE HORIZON AS HOLLYWOOD OFFERS UP SUPER SEQUELS...

After a banner year at the box office, movie studios are rushing to get the hottest hits of '93 under way. What big names will be behind next summer's most popular features and what new movies can we expect to see in '93? With a strong eye on sequels, EGM peers into its crystal ball to come up with its latest list of cinema goodies...

In the coming year expect to see the studios place major emphasis on getting additional mileage out of proven franchises. Not only does this conservative move guarantee big bucks to the film companies, it also means that we'll get a steady stream of updates on what our favorite characters have been up to lately!

One of the most exciting rumors to rip its way out of California revolves around a third entry in the Terminator series!

Although Carolco, the production company that owns the rights to the Terminator movies, won't officially comment, many see the company turning to its most profitable series to work up new cash. One potential hitch to a second sequel: (which is rumored to be in the scripting stage) James Cameron, the creative force behind the first two movies recently left the independent studio and was said to be working on a Spiderman film to finish out his Carolco contract.

New Line Cinema is another film company with plenty of familiar films under its belt. Among

"I'll be back." Could a Terminator 3 be on the way? According to rumors in Hollywood, the war against the machines may begin scripting soon.

New Line Cinema has a slew of familiar faces on the way, led by the brave quartet of Teenage Mutant Ninja Turtles!

We'll be seeing many new films from New Line in '93, including the resurrection of Freddy Krueger in seventh movie! Although the studio claimed to have killed off the perennial bad guy in his last feature, *The Nightmare on Elm Street* apparently won't be ending anytime soon! Also look for *Teenage Mutant Ninja Turtles 3* movie by Easter, a third visit to the House Party and a ninth (that's right - ninth) trip to Crystal Lake in *Friday the 13th Pt. Nine*. Will the rumors of a *Freddy vs. Jason* face-off come true? We can only hope.

Industry buzz indicates that talks are under way for a new *Star Trek 7* film to be helmed by the original crew. Although Shatner wants to direct from his own story (Kirk and Spock have a falling-out), rumor has it that any future voyages of the starship Enterprise will be piloted by someone new.

What is known is that Paramount will be releasing *Addam's Family 2* with the original cast, *Naked Gun 331/3* again starring Leslie Nielsen and the long-awaited bookend to the Axel Foley trilogy appropriately labeled *Beverly Hills Cop 3*. Billed as a "Die Hard in an amusement park" the big-budget action-comedy will bring the creative talents of Eddie Murphy to the screen once more.

Finally, look for Mike Myers to finish his *Wayne's World 2* script soon which, hopefully, will begin filming in early '93. Paramount, meanwhile, will also be exploring the possibilities of a *Ghost 2* with Whoopi Goldberg reprising her Oscar-winning role.

Anyway you look at it, 1993 will be a fantastic year at the movies! Add Spielberg's *Jurassic Park* and other potential blockbusters and you have a year that can't be beat!

Covering All the Angles

As competition in the comic book industry heats up, publishers are scrambling for ways to make their titles more appealing. The use of special "metallic" covers is one technique gaining in popularity as publishers learn that maybe people do judge a book by its cover after all.

When Image Comics' WildC.A.T.s #2, with its spectacular prism cover, hit dealer shelves in early November, it became one of the quickest sell-outs in comic history.

Of course, Lee's artwork inside the book also contributed to the comic's popularity, but fans just couldn't quit talking about that prism cover.

"I think it's a matter of pushing printing technology to its limits," a modest Lee said of his phenomenal cover.

Gareb Shamus of The Wizard agrees. "Because of its creative and colorful nature, the comic industry is willing to explore the newest printing technology as soon as it becomes available," he said.

"I actually got the prism idea from trading cards and thought it might work

for a comic book cover," Lee said of his WildC.A.T.s #2 cover. He not only used the prism effect to make a memorable cover, he actually incorporated the unique artwork into the book's storyline.

Comic book giant Marvel has also recognized the appeal of special covers and has explored many different techniques.

Earlier this year, they released a four-book series of Spider-Man hologram covers to celebrate the web slinger's 30th anniversary.

The first of the four comic books, Spectacular Spider-

Man #189, was released in June and is already worth more than twice its original cover price.

In the December release of Incredible Hulk, which was the green guy's 400th issue, a splintered prism effect on the cover virtually grabs the casual browser and demands to be opened.

Metallic ink is another popular method used to draw attention to a particular title.

Both issues #50 and #75 of the Silver Surfer use a silvery metallic ink to appropriately color the superhero. The

books are two of the most prized among Surfer fans.

Of course, aside from the commemorative value a special cover brings to a title, the main reason for flashy covers is to sell comics.

The allure of these covers has virtually guaranteed their viability far into the future.

And as comic books become valued commodities in the '90s, a spectacular effort such as Jim Lee's WildC.A.T.s #2 may be the closest thing any of us will ever get to a sure thing.

These recent Marvel releases are good examples of a growing trend in comics emphasizing special covers: from left to right are prism, embossed metallic, and holographic.

MTV's Liquid Television Drips With Bizarre Humor

If you repeatedly find yourself flipping through channels with the remote, convinced that you've seen everything television has to offer, think again.

MTV presents an hour long show on Sunday and Tuesday nights that is home to some of the most bizarre stuff you'll ever see on your screen.

No, Liquid TV is not some fantastic neon drink that makes your insides glow. It's a hodgepodge of underground animation, over the edge graphics, and stories from beyond the fringe.

Comprised of international animators from Hungary, Korea, England, Czechoslovakia, and the U.S., Liquid Television, despite its weirdness, received an Emmy Award for outstanding

achievement in graphic design and title sequences. Each surreal episode is a half hour long and features original and acquired animation, animatic versions of underground comics, stories featuring live actors, and short films, all unified by a strong graphic thread and off-center humor.

In other words, Liquid Television can be very weird at times.

The following story segments will air during the 1992 season:

Dog Boy

Dog Boy is about the misadventures of a boy with a dog's heart. The victim of a heart transplant by a cheap doctor who uses dog parts on his patients, Dog Boy buries bones in the back yard and chases cats on his way to work. The feature resembles a live action cartoon and has a Max Headroom-like appearance.

The Specialists - A cross between The Avengers and Rocky & Bullwinkle, The Specialists are troubleshooters for hire on a bicycle built for three. No challenge is too great - or too small - for Kittka, Samson, and Mastermind. They're desperate, and they know it.

Uncle Louie's Travels - Uncle Louie lives in New York. His nephew Butchle wants to know how long it will take Uncle Louie to get to his house in New Jersey if he flushes himself down the toilet.

Billy & Bobby - Billy & Bobby are normal, all-American fifth graders gone haywire...they make Bart Simpson seem tame. At a neighborhood birthday party, the boys bring a keg in their red wagon and spike the cool-ade.

Joe Normal - Joe Normal lives in a state of denial. He's the son of a psycho mother and a Japanese superhero. He constantly teeters on the brink of insanity and tries to convince himself that he's normal.

Speed Bump the Road-Kill Possum - He's slow, he's stupid, and he's flat - but he's a survivor. Speedbump defies the treads of speeding vehicles. Front wheel, rear wheel, foreign or domestic - just when you think he's met the asphalt for the last time - he comes back for more!

12 Dangers of Skydiving - The cartoon short reveals the not often thought about pitfalls of skydiving, such as what might happen if your friend decides to give you a wedge as you jump out of the airplane.

Stick Figure Theater - This is what it would look like if the doodles you draw in school came to life. Woodstock becomes line art in a stick figure portrayal of Jimi Hendrix's "Star Spangled Banner."

Whether this sort of humor appeals to you or not, Liquid TV is worth checking out at least once - if not for its content, then for its originality and shock value. It's participants deliver week after week.

Rules - All scores on Air Zonk must be received by February 15, 1993. If maximum scores are reached, a drawing of all maximum scorers will be conducted to determine prize winners. All scores must be submitted on official Team entry forms and accompany a legible photo. Void where prohibited. Send SASE to High Scores, 1920 Highland Ave., Suite 222, Lombard, IL 60148 for an official entry form. One winner per household per year. Score rollovers will be treated the same as maximum scores. Decisions of the judges will be final.

GAME OVER

FINAL FANTASY MYSTIC QUEST

FLOOR ONE

FLOOR THREE

THE MANY FACES
OF EVIL

The Dark King will change his form four times during the fight. Keep using your Flare spell and seeds to stop him. It's also a good idea to keep Phoebe on the automatic setting so she can heal you, and occasionally she will even get a critical hit on the Dark King. Have patience and you will probably survive this intense battle.

SAVE THE WORLD FROM THE DREADED DARK KING!

You have journeyed across the land in search of the four Crystals of the Earth. Your quest has finally led you deep underneath the Focus Tower to a hidden place known as Doom Castle. As you search through these dark foreboding dungeons, you find that your way to the very heart of the castle is blocked by stone. The only way past is to explore four floors of unspeakable danger. Only those with nerves of steel will find their way to the vile Dark King. Once you are in the midst of battle, the Dark King will show you his true, hideous form. Will you and your companion succeed in vanquishing him from the land forever, or will you be destroyed by his darkness?

The helpful old man turns out to be the last crystal.

Say goodbye to all your friends and set sail for distant lands.

Sail off into the sunset in search of your next Final Fantasy!

FLOOR TWO

FLOOR FOUR

This floor has a special statue in the middle of the room. Talk to it; it will help you.

Sail back to the town of Windia and rest for awhile.

Tristram joins your quest for more adventure.

The End!

PORTABLE TUNES

What's more fun than watching a cartoon? Starring in one! Bugs Bunny, Daffy Duck, The Tasmanian Devil and many other favorite Looney Tunes characters circle the world in a wild and totally looney adventure. You control a different character through six wild and wacky "mini-cartoons"—plus a blast of a bonus round—it's like playing seven different games in one!
